

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

A Message from His Excellency by the Master in Chancery.

M^r Speaker and Gentlemen

I apprehend Your Resolution Contained in your Message of the 28th Instant relative to the Contractors Account proceeds from a Mistake, or by not being thoroughly Acquainted with the Establishment of the Rangers in this Province, for Altho' by the Contract the Transporting of provisporting ^(sic) of provisions by Land or Water from the port where they are delivered by the Contractors is to be at His Majestys Expence Yet that I conceive is to be understood only with respect to the Kings Troops in General at the Northward where Commissaries are appointed for Conducting those Matters, and who are particularly Empowered to engage and Draw for those Expences and which cannot be done here where there is no such person or Officer — Besides Gentlemen the very Establishment of these Troops by General Amherst shews plainly that tho' they are paid and Victualled by the Crown yet the Expence of Transporting the provisions from the place where delivered to the place of Consumption was to be at the Expince of the Province

for he says in his Letter that "he shall write to the King's Contractor for provisions at New York that he has directed there two Troops of Rangers to be Established and that he must Victual them in the same manner that the Carolina Independant Companies are he likewise says that no provision is made for Contingences for any of the Rangers at the Northward and the Expence of carrying the provisions from Charles Town to Keowee and other places where those Companies are doing Duty has always been paid by the Province and not by the Crown—and therefore I must desire you'll be pleased to reconsider this Matter—

JAMES WRIGHT 31st Jan^r 1763

Commissrs. for
Building a New
Light House at
tend the House

The House being informed that the Commissioners for building a New Light House upon the Island of Tybee, attended at the Door they were called in (and according to order) presented at the Bar of the House the report of their proceedings which was read to the House in the Words following Viz^t

& make their
Report

The Commissioners appointed for building a New Light House on Tybee Island in pursuance of the Power vested in them by the Act of the General Assembly for that purpose passed have entered into an Agreement with John Mullryne Esquire, for building the same with Brick, within two Years from March last, for the sum of three thousand Pounds, which was the Lowest Estimate, and proposal that was made to them, in Consequence of their Advertisements for that purpose, One third

of which Sum to be advanced, On ^(sic) third to be paid when the building shall be raised forty feet, and the remaining third, when fully compleated, the same to be Erected upon such Spot, as the Commissioners should point out.

In Consequence of this Agreement a Board of Commissioners went down to Tybee and found a Spot which they imagined would answer the intended purpose, and which is upon the Land reserved for the use of a Light House, but the said Spot being, upon further Inspection thought too low, a full Board of Commissioners again went down on the twenty eighth past, and got M^r William Lyford, the Pilot, to accompany them, and having diligently Viewed, as well the Publick Land on the said Island, as such other parts which were thought Necessary and carefully set the Light House, the Bar, and the Fort of Cockspur are of Opinion, that the most proper and Eligible Spot to place the said Light House upon, is on a high and broad ridge of Land, heretofore the property of Peter Cadman and now of William Lyford, where it will appear Conspicuous both to the Northward and Southward.

The Commissioners must Observe, that no future Light House can be a leading Mark for the Bar, unless erected where the present one now stands, which is impracticable, at least would not, from the Encroachment of the Sea, answer any purpose, but they find that, by cutting down a few trees above the present Light House, the the Point of Tybee and the said Fort of Cockspur will be a very safe and apparent leading Mark—

All which the said Commissioners do report to this House pursuant to the Order by them made.

ORDERED That the report of the said Commissioners do lie upon the Table to be perused by the Members of this House.

Indian Bill read a third time The Ingrossed Bill, entitled an Act to prevent private persons from Incroaching upon or purchasing any of the Lands reserved for the Indians, or trading with them without a Licence, and also to repeal an Act, Intitled an Act to prevent Private Persons from purchasing Lands from the Indians, and for preventing Persons trading with them without Licence, was read a third time, upon the Question being put, that the Bill should pass, it passed in the Negative —

& Rejected RESOLVED That the said Bill be Rejected.

ORDERED That the other Order of the day, for the Commissioners of the Town and Common to lay their proceedings and Accounts before the House be adjourned over till Thursday next.

Petition from
part of the In-
habitants of St.
Johns Parish

A Petition from part of the Inhabitants of Saint John's Parish, whos names are thereunto subscribed, was presented to the House, and read Setting forth, That whereas they are informed the Inhabitants of Saint Andrews Parish, have petitioned the House for Redress of Grievances, by the Grant of a Middle Parish, in which to include a part of the Parish of Saint John's, and whereas the Inhabitants thereof, for a Considerable term, and Several, even fifteen Years past, have been laboriously employed in the Annual performance of the Publick Work in the same, and having so far accomplished it, that now themselves and Travellers may pass with some Conveniency, the Additional Work of a Middle Parish would certainly be esteemed a very great Grievance Yet as Saint Andrew's Parish is extensive, if extending the Boundary four or five Miles would redress them, they

have no Objection, otherwise they Conceive of that Parish, there may be made two as large as Saint Johns, The Petitioners therefore do humbly Sollicit, if the Wisdom of the House think meet, they may not be either included in a Middle Parish, or distinctly, from the Chief of the Inhabitants of Saint John's Parish, made Subject to any Additional Work, and the Petitioners will Pray, &c^a—

I now send you such Information as I have received relative to the Murders committed by the Creek Indians at the long Canes Settlement in South Carolina; and altho' those Murders were committed out of this Province, yet we don't know what it may lead us into. And if the Indians do not make Satisfaction agreeable to the third Article of the Treaty lately made at Augusta, it will undoubtedly become a Common Cause, and this Province not only involved, but in all Probability feel the first and heaviest Effect of a Rupture with them. And in Case the Circumstances of Affairs with the Indians sho'd prove so as to require any Measures being pursued by me with the Militia of this Province during the approaching Recess I wou'd recommend it to your Consideration whether it will not be necessary to give such as may be ordered and go on actual service, some small Matter of Subsistence; and if this sho'd appear necessary, then whether your passing a Vote of Credit to enable me so to do, and coming to a Resolution to make Provision for the payment of such Expence, if any sho'd be incurred on that Account, at your next Meeting, may not be expedient, ffor the Occasion, if any, may happen at such a time during your Recess, as probably will not be convenient for you to meet at; besides the loss of Time that

will be spent in calling you together, and providing for such a Service.

To His Excellency James Wright Esq^r, Captain General and Governor in Chief of His Majesty's Province of Georgia.

May it please Your Excellency,

The Commons House of Assembly having taken into Consideration Your Excellency's Message to the House, the 15th Instant, and being extremely sensible how necessary it is to enable Your Excellency to make provision for the Subsistence of such of the Militia as may be thought expedient by Your Excellency to be ordered out, and go on actual Service, in Case of a Rupture with the Indians; This House hath unanimously resolved to provide a Sum, not exceeding five hundred pounds for that purpose, at six pence by the Day for each Man.

To His Excellency James Wright Esq^r Captain General and Governor in Chief of His Majesty's Province of Georgia, Chancellor and Vice-Admiral of the same.

The Humble Address of the Commons House of Assembly.

May it please Your Excellency

The address. We his Majesty's most dutiful and loyal Subjects, the Commons House of Assembly of the Province of Georgia beg leave to represent to your Excellency that this present Assembly having continued for three years, and there being no provision made in the Election Law for limiting its duration, we are therefore under the Necessity of earnestly requesting Your Excellency to dissolve the General Assembly before the usual Time of Meeting in the ensuing ffall, as it wou'd not only be inconvenient for many of the Members of the Commons House, but even highly detrimental to their private Affairs, if they were obliged to give their Attendance during any longer Period.

We cannot let Slip this Opportunity of testifying the grateful Sense we have of your Excellency's ready and chearful Concurrence with us in every Measure proposed by us for promoting the true Interests of this Province: and we hope that the remarkable Unanimity which has subsisted betwixt all the Branches of the Legislature, and

our having co-operated heartily with your Excellency in every Matter you have been pleased to recommend to us, will be an incontestible proof of the Opinion which the Representatives of the people have of the Wisdom and Uprightness of your Administration; and it gives them the greatest pleasure to find their Judgment on this important point confirmed and supported by the general Voice of the people.

ORDERED, That M^r Speaker do sign the said Address :

And he signed the same accordingly

RESOLVED, That the said Address be presented to His Excellency by the whole House.

ORDERED, That M^r Deveaux and M^r Ewen do wait on His Excellency and acquaint him, that this House having an Address to present to His Excellency desires to know when he will be pleased to be attended by the House therewith.

M^r Deveaux and M^r Ewen waited on His Excellency according to order and being returned M^r Deveaux informed the House that his Excellency was pleased to say, when the House pleases.

Then M^r Speaker with the whole House went and attended His Excellency with their Address; and being returned M^r Speaker reported that they had presented their Address to His Excellency, to which he was pleased to return the following answer, viz^t

Gentlemen,

**The Governor
answer.**

Altho' the duration of Assemblies is not fixed to any particular period in this province, yet it is not to be supposed that a Governor will ever exercise any part of his power injuriously to the people; and hope whilst I

have the Honor to preside here, I never shall. The remarkable Unanimity which has hitherto subsisted amongst us, must afford great Satisfaction. I thank you for your chearful concurrence and support in every Matter I have at any time thought necessary to recommend to you, and think myself very much obliged to you for the generous Sense you express of a general Approbation of my Conduct, and you may rest assured that agreeable to your Request, I shall dissolve the present Assembly and order Writs to be issued for the choice of another before the usual time of going on Business in the ffall.

A Packet from
the Assembly
of Massachu-
setts Bay to the
House opened
& read

A Packet directed to the Honorable the Speaker of the House of Representatives of the Province of Georgia was opened and a Letter therein inclosed was read in the following Words

Boston June 25th 1764.

Sir,

The House of Representatives of His Majesty's Province of the Massachusetts Bay at the Session of the General Assembly in May last being informed of the late Act of Parliament relating to the Sugar Trade with the foreign Colonies and the Resolutions of the House of Commons relating to the Stamp Duties and other Taxes proposed to be laid on the British Colonies were humbly of Opinion that those Measures have a Tendency to deprive the Colonists of some of their most essential Rights as British Subjects and as Men particularly the Right of assessing their own Taxes and being free from any Impositions but such as they consent to by themselves or Representatives.

Our Agent informs us that in a Conference he had with M^r Greenville on these Subjects he was told that the Ministrey were desirous of consulting the Ease the Quiet and Goodwill of the Colonies

Such Expressions induce us to hope that there is nothing punctive in these Measures and that humble dutiful Remonstrances may yet have their Effect But if while these Things are thus publickly handled no Claim is made no Remonstrance preferred on the Part of the Colonies such Silence must be interpreted a tacit Cession of their Rights and an Humble Acquiescence under all these Burdens.

The House have Wrote fully upon this Subject to the Agent of this Province and directed him to remonstrate against these Measures and to endeavour a Repeal of said Act and if possible to prevent the Imposition of any further Duties and Taxes on the Colonies For this Purpose they were desirous of the united Assistance of the several Colonies in a Petition against such formidable Attacks upon what they conceive to be the inseperable Rights of British Subjects and that the Agents of the several Colonies might be directed by the Representatives of the People on the Continent of North America to unite in the most serious Remonstrance against Measures so destructive of the Liberty the Commerce and Prosperity of the Colonists and in their Tendency so pernicious to the Real Interest of Great Britain.

The House have done us the Honor to appoint us a Committee in the Recess of the General Court to inform the several Houses of Representatives of this Continent

of their Desires and We do ourselves the Honour to subscribe our selves,

Your most

Humble Servan s,

JAMES OTIS—

THOMAS CUSTRING—^(sic)

OXENBRIDGE THACHER—

THOMAS GRAY—

EDW^d SHEAFFE—

A Paper also inclosed in the said Packet containing certain orders of the House of Representatives of His Majesty's Province of the Massachusetts Bay was also read as follows.—

In the House of Representatives,

June 13th 1764—

The Committee appointed to consider the Letters from Mr Agent Maudiut reported the Draught of a Letter to him which was read and accepted and

ORDERED That a fair Draft thereof be transmitted to said Agent together with the state of the Rights of the British Colonies and that he be informed that said State was drawn up by one of the House and to be improved by him as he shall judge proper.

other Impositions and Taxes upon this and the other American Provinces and that the said Committee in the Name and Behalf of this House desire the several Assemblies on this Continent to join with them in the same Measures.—

The ingrossed Address to His Excellency was read in the following Words, Viz^t

To His Excellency James Wright Esquire Captain General and Governor in Chief of the Province of Georgia and Vice Admiral of the same.—

The humble Address of the Commons House of Assembly.

May it please your Excellency

Address to His Excellency We his Majesty's most dutiful and loyal Subjects the Commons of his Majesty's Province of Georgia in General Assembly met return your Excellency our most sincere and unfeigned thanks for your Speech to both houses of Assembly.

Permit us Sir to acknowledge the very grateful and sincere sence we have of the happiness we enjoy under your equitable and mild administration.

Your Excellency's tender care and human endeavours to prevent the spreading of that dreadful distemper the small pox as soon as it unhappily broke out amongst us demands our own most grateful acknowledgments.

We should be very much wanting in duty to our most gracious Sovereign if we omitted to testify on this occasion the lively sense we have of his Majesty's royal favour to this Province in annexing so considerable a territory thereunto We heartily congratulate your Excellency on the extension of your jurisdiction and join with you in opinion that it is extremely expedient we should frame a Bill for the enforcement of all our general laws to and throughout the same and agreeable to your Excellency's recommendation shall endeavour to revise and correct the Militia and Negro Laws that they may more effectually answer the good ends proposed.

We highly approve of the plan now concerting by his

Majesty's Post-master-General for the Establishment of a regular post throughout the Colonies to promote which nothing in our power consistent with the Abilities of our Constituents shall be wanting.

With equal readiness we shall take under consideration what your Excellency has been further pleased to recommend to us with respect to the ruinous state of Fort Augusta and of the Gaurd-house in Savannah and we only wish that the circumstances of this Province did correspond with our real desires to comply with every recommendation signified to us by your Excellency.

The satisfaction your Excellency discovers in communicating to us the happy situation of our Indian affairs convinces us of your great regard to the real Welfare and interest of this province and we in the most grateful manner acknowledge the obligation we are under to your Excellency for preserving us in so tranquil a state as to have rendered useless the vote of Credit with which you were so worthily intrusted.

We shall take under Consideration the produce of the last years tax and for the necessary services of the current year we will chearfully provide. We shall use our utmost endeavours to give such dispatch to the publick business that the attendance thereon may not become injurious or burthensome to any of the members and doubt not that the same will be conducted with that temper unanimity and confidence that has hitherto proved so conducive to the welfare of this province.

By order of the House.

A Petition of Sir Patrick Houstoun Baronet the Honorable Noble Jones The Honorable Francis Harris Esq^r Noble Wimberly Jones Charles Watson William Ewen William Spencer Henry Bourquin Esq^m and many others Planters and Inhabitants of this Province whose Names are thereunto subscribed was presented to the House and read in the following Words Viz^t

To the Honorable the President and the Members of His Majestys Council and to the Honorable Alexander Wyllly Speaker and to the Members of the Commons House of Assembly of the Province of Georgia—

The Petition of several Inhabitants of the said Province

Humbly Sheweth

That your Petitioners have had allotted them several Tracts of Land in the said Province the major part of which Allotments were made during the Government of the Trustees for establishing the Colony of Georgia and for which they have since obtained His Majesty's Grants.

That your Petitioners to their equal Surprise and Concern are informed that the said Lands are said to be claimed by Sir William Baker Knight under a Grant from the proprietors of South Carolina prior to the Division and Settlement of this Province.

That some of your Petitioners had some of their Lands allotted them as a Recompence for their Services in this Province and others who were Soldiers in General Oglethorpe's late Regiment disbanded here had each a Tract of fifty acres within the Limits said to be claimed as aforesaid ordered them in Consequence of His late Majesty's Instructions at the Reduction of that Regiment—

That it appears that several of the Farm Lots laid out at the first Settlement of the Province and annexed to the Town Lots in Savannah and conveyed by the Trustees to several persons in Trust for the Freeholders of the said Town are also within the said Claim.

That the Village of Vernonburgh in particular (the greatest part of which is included in the said Claim) was laid out in Small Tracts to several of your Petitioners or their Ancestors whose unwearied and continued Industry has been employed in improving a Soil so bar-

ren that without the effectual Efforts they have made would scarce be fit for any purpose of Cultivation.

That the Majority of your Petitioners are persons in middling and many of them in low Circumstances the chief of whose Substances is their Lands and the Improvements thereon erected at the Expence and by the hard manual Labour of themselves and their forefathers for upwards of thirty years—

That should they now be turned off from their respective Habitations not only themselves (many of them bending under the weight of years and infirmities) would be reduced to the lowest Ebb of Distress and Want but their helpless and in many Instances numerous Families must inevitably become Sharers therein

That your Petitioners cannot but observe that as they were ignorant of the said Claim they must be cleared of any voluntary Incroachments upon the Lands said to be claimed by the said Sir William Baker your Petitioners taking up and improveing their several Allotments upon the repeated Encouragement given to induce Settlers to come into the Province the Error and Misconduct of any must therefore in Justice be imputed to those who made the Allotments—

Your Petitioners confiding in the often experienced Tenderness and Attention of Our most Gracious Sovereign to the Welfare and Interest of His meanest and most remote Subjects beg leave to pray that your Honorable Houses duly weighing the melancholy Situation they are in with respect to their Property will please to give Directions to the provincial Agent concerning the premises and strongly recommend to him to lay their Case in the most respectful Manner before His sacred

Majesty or such Board as may be necessary to procure them that Relief it may be thought to deserve.

And your Petitioner's shall ever pray &c.

RESOLVED That this House will give Instructions to the Committee of Correspondence with the Provincial Agent to direct him strongly to solicit Relief in the Premesses.

And then the House adjourned till To morrow Morning Nine o'Clock.

Speech at the
close of the
Session

Before I put an End to this Session I must return you my Thanks so justly due for the Attention you have given to the several Matters recommended by me. And Gentlemen altho' I have now assented to several beneficial and useful Laws yet let me observe to you that the real Benefit of all Laws howsoever wisely they are framed chiefly depends upon the due and regular Execution of them. I must therefore in the strongest manner request and recommend it to you who have any share in the Executive Power to exert your selves in all such Matters as may come within your Province to execute and to enforce

an impartial and steady observation of the many good Laws not only now but which have been heretofore enacted a general supiness in the Execution thereof being but too evident.

Message from the Governor

Accordingly M^r Speaker with the House went up to attend his Excellency in the Council Chamber and being returned M^r Speaker reported that the House had attended his Excellency and that he had been pleased to make an affectionate Speech to both Houses of Assembly of which M^r Speaker said to prevent Mistakes he had obtained a Copy which was read to the House and is as follows.

Honorable Gentlemen

M^r Speaker and Gentlemen of the Assembly—

The Governor's Speech to both Houses

Amidst the Blessings of Peace let us give our Attention to such Objects as may best encrease the strength and Wealth of this valuable and thriving Colony We have good Lands but want Inhabitants to cultivate and improve them every possible Means and Assistance there—

fore should be used and given to attain this desirable End and invite good Settlers to come amongst us and it gives me great Pleasure to have it in my Power to inform you that in Consequence of a Reserve made of Land for a Township on Great Ogechee River about One hundred and forty Miles from Savannah a considerable Number of industrious reputable protestant Families are willing and ready to come over from Ireland to this Province to settle on those Lands provided they can be assisted towards paying their Passage out and in some other little Matters also have their Lands exempted from the provincial Tax for a reasonable Time.—

The many and great Advantages that will result to the Province by having a Settlement of a Number of sober regular and industrious Families in that Part of the Country are so evident that it is needless for me to hint at them I shall lay before you a Sketch of the Expence and propose a Method by which I hope the Assistance desired may be easily given and doubt not but you will go as far on this Occasion as the Nature of it deserves consistent with the present Situation and Circumstances of the People

The Encouragement and Ease of Trade and Navigation also deserves our serious Attention in so far as lies in our Power to give assistance I must therefore recommend to your Consideration the Improvement of the Navigation of our River at least that you will fall on effectual Means to prevent its growing worse by the great Quantities of Earth and Sand that in rainy Seasons washes and breaks down into it from the Bluff before the Town and which must in a short Time considerably affect and injure the Navigation It likewise seems expedient to make some Addition to the Law for regulating Pilots by which the Commissioners may be further empowered and enabled to compel them to be more at-

tentive and vigilant in the Discharge of their Duty. These and any other proper Measures that may appear necessary or useful towards the Advancement of the publick Weal I shall most heartily concur with you in and am certain I need not use any Arguments to induce you to set about them with a becoming Spirit nor mention on this Occasion Harmony and Temper but give me leave to recommend Dispatch which must doubtless render the Session more agreeable and pleasant to every Person concerned.

Gentlemen of the Assembly

I shall direct an Account of the Produce of the last Year's Tax to be laid before you and the usual Estimate for the Service of the Current Year which I must request you to provide for in such Manner as you may judge most agreeable to your Constituents

Sir

Mr. White's
Letter to the
Speaker

The House of Representatives of this Province in the present Session of the General Court have unanimously agreed to propose a Meeting as soon as may be of Committees from the Houses of Representatives or Burgesses of the several British Colonies on this Continent to consult together on the present Circumstances of the Colonies and the Difficulties to which they are and must be reduced by the Operation of the Acts of Parliament for levying Duties and Taxes on the Colonies and to consider of a general and united dutiful loyal and humble Representation of their Condition to his Majesty and the Parliament and to implore Relief. The House of Representatives of this Province have also voted to propose such Meeting to be at the City of New York in the Province of New York on the first Tuesday of October next and have appointed a Committee of three of their Members to attend that Service with such as the other Houses of Representatives or Burgesses in the several Colonies may think fit to appoint to meet them and the Committee of the House of Representatives of this Province are directed to repair to the said New York on said first Tuesday of October next accordingly

If therefore your honorable House should agree to this Proposal it would be acceptable that as early Notice

of it as possible might be transmitted to the Speaker of the House of Representatives of this Province.

Sir/

Answer thereto

Your Letter dated in June last acquainting me That the House of Representatives of your Province had unanimously agreed to propose a Meeting at the City of New York of Committees from the Houses of Representatives of the several British Colonies on this Continent on this first Tuesday in October next to consult together on the present Circumstances of the Colonies and the Difficulties to which they are and must be reduced by the Operation of the Acts of Parliament for laying Duties and Taxes on the Colonies and to consider of an humble Representation of their Condition to his Majesty and the Parliament and to implore Relief, came to hand at an unlucky Season it being in the Recess of the General Assembly of this Province Nevertheless immediately upon the Receipt of your Letter I dispatched Expresses to the several Representatives of this Province acquainting them with the Purport thereof and requesting them to meet at this Place without the least Delay and accordingly they met here on Monday last to the Number of sixteen being a large Majority of the Representatives of this Province the whole consisting of Twenty five Persons but his Excellency our Governor being applied to did think it expedient to call them together on the Occasion which is the reason of their not sending a Committee as proposed by your House for you may be as-

sured Sir that no Representatives of any Province on this Continent can more sincerely concur in the Measures proposed than do the Representatives of this Province now met together neither can any People as Individuals more warmly espouse the Common Cause of the Colonies than the People of this Province.

The Gentlemen now present request it as a Favour you'll be pleased to send me a Copy of such Representation as may be agreed upon by the several Committees at New York and acquaint them how and in what Manner the same is to be lain before the King and Parliament whether by any Person particularly authorized for that Purpose or by the Colony Agents

The General Assembly of this Province stands prorogued to the twenty second Day of October next which is the time it generally meets for the Dispatch of the ordinary Business of the Province and I doubt not the Representatives of this Province will then in their Legislative Capacity take under Consideration the Grievances so justly complained of and transmit their sense of the same to Great Britain in such Way as may seem best calculated to obtain Redress and so as to convince the Sister Colonies of their inviolable Attachment to the Common Cause

A Message from his Excellency the Governor by the Master in Chancery

M^r Speaker and Gentlemen

Message from
the Governor
recommending
Establishment
of the Post
Office.

The Deputy Post Master General for the Southern District of North America having represented to me that the establishing Officers and Riders will be attended with a very considerable Expence and more than the general Office can support for some Years to come and that without the Aid and Assistance of the Colonies with-

in his District it will be impossible for him to carry the excellent Design of a safe beneficial and expeditious Circulation of Correspondence into Execution—and as the great Utility and general Advantages that will result not only to the Commercial but every other Interest from having a constant regular Post established to and throughout this Province are so obvious I must recommend that Matter to your Consideration and hope you will make such Provision as may appear necessary on that Occasion—I have wrote to the Deputy Post Master General for an Estimate of the Aid or Assistance which he thinks will enable him to carry on the Purpose of his Appointment and when I receive the same shall furnish you with it—I must also desire that you will resume the Consideration of establishing a Ferry over Savannah River from the Lands of M^r Brewton in this Province to and from the Ferry on the Carolina Side of the River on the Lands of Mess^{rs} Jermyn and Charles Wright that a Law may be forthwith passed for that Purpose.

You having in a Letter written some time ago tendered your good Offices to this infant Colony it takes this Opportunity by it's Representatives legally convened to return you sincere Thanks for so great a favor and at the same time to beg you would oblige it in a Matter of the highest Importance upon the Result of which the future Happiness and Welfare of this Province in a great Measure depend—

This House having thought proper to come to a Reso-

lution some time ago to direct the Committee of Correspondence to inform the Agent William Knox Esq^r that they had no further Occasion for his Services and tho' he cannot be divested of that Trust without the Ordinance being repealed which does not expire before the first Day of May next Yet from such a Resolution being agreed to he cannot be employed in presenting a Petition to his Majesty a Memorial to the Right Honorable the House of Lords a Petition to the Honorable the House of Commons or in any other Business that concerns the Province. Being so circumstanced this House cannot apply to any Gentleman in whom it has more confidence than yourself— It has Sir the greatest Opinion of your Integrity— And that you will give your Assistance to it in the most ample Manner Your Candour and Abilities it is assured of and therefore has not the least Doubt of your Willingness to do it service

Inclosed you have the Petitions and Memorial that were agreed on by the several Commissioners at the Congress of New York which have been agreed to by this House and request it as a particular Mark of your Regard for this Province that you will carry the same into Execution by employing the best Counsel— The Faith of this Province is pledged by a Vote of this House and you may be assured that every Expence that may or shall accrue in support of what they commit to your Charge together with a most grateful Acknowledgment of your Favour shall be most punctually remitted

They have beg'd the favour of the Gentlemen of the Honorable the Commons House of Assembly in South Carolina to write to you in this Behalf. As they know in what manner they are at present circumstanced that is not being able to have their Business transacted by the

Memorial of Daniel Nunez presented, & read.

A Memorial of Daniel Nunez was presented to the House and read setting forth That the Memorialist by an Ordinance passed the 25th March last was by the unsolicited Favour and Indulgence of this Honorable House appointed Waiter in the Port of Savannah with a Salary of Ten Pounds per Annum which was by an Act passed the same Day directed to be paid him out of certain Duties therein laid— That the Memorialist from a due and

grateful Sense of the Obligation conferred upon him by the said Appointment would have executed the Office altho' no Salary had been annexed to it but that as he humbly conceives the same was meant as an adequate and sufficient Gratuity for the Service to be performed by him in the said Office that the Memorialist begs leave with the utmost Deference to remonstrate to this Honorable House That the Number of Shipping entering into this Port necessarily obliges him to a constant Attendance— That the Duties arising from the Act above-mentioned are much more considerable than were imagined. That the Memorialist hopes he may be allowed to say that his Conduct as Waiter has been in some Measure the Means of such an Increase and always approved by the Office under whose immediate Department he is. He therefore hoped this Honorable House will take the Premises under their serious Consideration and make such an Addition to his Salary as they may think his whole Time being devoted to their service and his unwearied Diligence and Attention (which he shall make it his Study to persevere in) therein may deserve And the Memorialist as in Duty bound shall every pray &c. as also—

Petition of the

of St. Paul's
Parish presented
and read.

A Petition of the Church Wardens and Vestry of the Parish of Saint Paul in Behalf of themselves and the rest of the Inhabitants of the said Parish was presented to the House and read setting forth That, in Consequence of an Application some time since made by the Petitioners to the Society for propagating the Gospel in Foreign Parts to send them a Missionary the Reverend M^r Samuel Frink A: M: a worthy pious learned Clergyman has been appointed for that Purpose and resided among the Petitioners near a Year and acquitted him in the Discharge of his Function with universal good liking and Approbation.— That in Consequence of several Emolu-

ments which the Petitioners set forth to the said Society that would accrue to a Clergyman in the Parish aforesaid (but some of which had since failed) the Society thought proper to allow their Missionary only Thirty Pounds Per Annum— That from the Failure of the aforesaid Emoluments the Petitioners with Concern behold their worthy Rector disappointed of near forty Pounds Per Annum whereby his Income is insufficient to support the Dignity of his Station: And further setting forth That the Petitioners have endeavoured as far as their Circumstances would permit to retrieve (by a private Subscription amongst themselves) the aforesaid Disappointment but not being able wholly to do so they therefore pray'd this Honorable House would be pleased to assist them by such Augmentation of the Salary already established for a Clergyman as to it's Wisdom shall seem meet.

Order thereon ORDERED That the said Memorial and Petition do lie on the Table for the Perusal of the Members of this House.

M^r Jones from the Committee appointed to enquire into the Quantity of Land proposed in the Memorial of the Honorable William Simpson Esq^r to be exchanged and also of the Publick Common adjoining the Lot of Land of the said Memorialist reported that the Land proposed to be exchanged contains 47 Feet by 120 And that the Common adjoining the Lot of Land of the Memorialist extends 589 Feet to the Westward.

Captain Alleck having been fully empowered by the Upper and lower Creek Indians to sell his Plantations at Seville and to agree with me upon an Alteration of the Line between us and the Lands reserved for their Hunting Grounds I have settled the same with him and send you the Original Agreement for your Perusal.

The Consideration agreed upon with Captain Alleck is a Negro who run away from M^r John Calwell and come to the possession of Alleck on the Road near the Indian Nation as he says for this Negro and the Loss of a years Work M^r Calwell asks £60 to which I told him I should lay the Matter before you for your Consideration and Determination thereupon.

Cap^t Alleck informed me that there is about Eleven Runaway Negroes in the Indian Nation and I have stipulated with him that they should be delivered up to the

Traders in the Towns where they are and for each Negro so delivered the Indians to have a Cag of Rum at the Time of Delivery

I must also acquaint you Gentlemen that Cap^t Alleck has made a Demand upon me to fulfill a Promise made by Governor Ellis in Consideration of Services performed by him at the Request of Governor Ellis in the Time of the Indian Alarm— Alleck says the Promise was thirty Head of Cattle and M^r Nunez remembers the Thing I have just now had some Assurances from Alleck with respect to Satisfaction for the late Murders agreeable to a Talk now going from me to the Nation on that Occasion and therefore am of Opinion that enabling me to perform Governor Ellis's Promise will at this Time answer a very good Purpose.

Honorable Gentlemen

M^r Speaker and Gentlemen of the Assembly

His Excellency's Speech to both Houses

I have very chearfully concurred with you and assented to every Bill you have prepared during this Session and doubt not but the Province will receive all those Advantages that may be reasonably expected from Laws so prudently calculated and well intended

But before we part let me in the strongest Manner recommend it to you to endeavour to rectify and remove the gross Errors and ill-grounded Prejudices which some misguided People have been lately led into by Men who can neither be Friends to their King their Country or to Society also to promote Peace Harmony and good Order amongst Us which it is not only our Duty but our Interest to do Let us shew that Decency and submission to our most gracious Sovereign and his Authority which he has a Right to expect from us and let us confide in the Justice of the Mother Country for Relief if we are aggrieved which will in Reality prove us to be loyal good and wise Subjects.

Gentlemen

I think from your Knowledge of my Conduct and the Views I have had for upwards of five Years that I have been Governor here You will not consider what I now say as meer Words or Matter of Form or Course proceeding from an Officer of the Crown for altho' I will at every Hazard discharge my Duty to the Crown and

the Trust reposed in me as I conceive a faithful Servant and honest Man ought to do Yet believe me I am at this Time more particularly actuated to say what I have by a true zeal and Regard for the Welfare and Prosperity of this Province and it's Inhabitants who I am most anxious to save from every Kind of Inconvenience and Distress.

A Message from his Excellency the Governor by the Master in Chancery, viz^t

M^r Speaker and Gentlemen of the Assembly—

**Message from
the Governor.**

The excessive Rains and Inundations that happened about the Middle of last Month having done considerable Damage not only to the Corn in Store, but to the Crops on the Ground and there appearing to be a very great scarcity of Provisions throughout the Province I have thought it necessary to call you together to consult what it may be proper to do on this Occasion and must recommend to your Consideration, whether it may not be expedient to prevent the Exportation of Rice from this Province for a certain Time or Subject to such Provisoos or Conditions as may be judged proper. And also to authorize the Governor with the Advice and Consent of His Majesty's Council by Proclamation to restrain the Exportation of Indian Corn at such times as it rises to a certain Price or there may be an Appearance of real Want or distress from the Scarsity ^(sic) of Corn in the Province. And altho' a Prohibition to export the principal Commodity or Article of Produce and Trade in any Province ought not to be but on very Mature Deliberation and in the most Extraordinary or Necessitous Cases yet when

we are threatened with Real want and Distress it may be Prudent so to do—

Journal of the proceedings of the Commons House of Assembly of the Province of Georgia at the fifth session of the Sixth General Assembly of the said Province according to adjournment at the Town of Savannah on Monday the Tenth day of November in the Year of our Lord One Thousand Seven Hundred and Sixty Six—

A Message from His Excellency the Governor by
Charles Watson Esq^r Master in Chancery—

M^r Speaker

His Excellency the Governor requires this House to
attend him in the Council Chamber immediately.

The House
attends his Ex-
cellency the
Governor

Accordingly M^r Speaker with the whole House went
up to attend His Excellency in the Council Chamber and
being returned M^r Speaker reported that the House had
attended His Excellency and that His Excellency had
been pleased to make an Affectionate speech to both
Houses of Assembly of which M^r Speaker said to prevent
mistakes He had obtained a Copy which He read to the
House and is as follows—

Honorable Gentlemen

M^r Speaker and Gentlemen of the Assembly

His Excellen-
cy's peech to
both Houses of
Assembly

The several Acts passed in the last session of Parlia-
ment transmitted to me by His Majestys Ministers and
so evidently Calculated to promote the Trade, true Hap-
piness and prosperity of the American Colonies are such
strong instances of the Concern and tender regard shown
for us by His most sacred Majesty and the British Par-
liament as I am confident will raise an ardour in us to
embrace every Opportunity of manifesting Our duty
respect and gratitude to so good and Gracious a Sov-
ereign and Our Affection and Attachment to the Mother
Country. And this Our Happy situation and prospect
will afford us time and inclination to Consider what may
be Necessary and proper for us to do for Our more im-
mediate and internal Welfare.

And Health being a most desirable and valuable Bless-

ing every one must be disposed to contribute towards the attainment and Continuance of it. And as we now begin to have importations of considerable cargoes of Negroes from Africa, it becomes very Necessary to guard against any Contagious diseases being brought amongst us by Negroe ships. I must therefore recommend it to Your consideration whether a Lazaretto should not be built at some convenient place within the entrance of the river where Ships can lie in safety and the Negroes be easily landed and Aired and where such as are distempered may remain for such time as shall be found Necessary

It appears to me that no Lands can be more suitable for the Hemp than Our Cane Banks and high river swamps as well as other Lands in this province, Its culture and management perfectly easy and its produce extremely profitable, and altho we may not be able at present to give any Bounty or considerable encouragement towards the introduction of that valuable commodity into this Province yet if a Quantity of Seed was purchased and delivered by the Commissary (Gratis) to such as are disposed to plant and make a trial it would doubtless be an inducement to several to begin the Attempt and the expence to the Province very small. It will give me great pleasure to concur with you in these or any other matters that may appear to be of publick utility or tend to promote the true Interest of this Province.

As several very Necessary and salutary Laws will expire with this Session of Assembly I must recommend to you a carefull Inquiry and examination into this matter that they may be Continued or altered as may seem most expedient.

Gentlemen of the Assembly

I shall direct the Treasurer to furnish you with an

Account of the last Years tax and shall send you an Estimate for the necessary service of the current Year which I am certain you will chearfully provide for in such manner as may appear to you most Convenient.

Gentlemen

It is a great satisfaction to me that I have nothing extraordinary to ask or any new matter of considerable Expence to propose and I perswade myself that our Business will be carried on with that unanimity and dispatch which must make it easy an ^(sic) agreeable to us all.

der fund

The Commons House of Assembly having taken into consideration that part of your Excellency's speech at the opening of the Session recommending a Lazaretto to be built for the reception of infected persons coming into this province, have agreed to purchase a Convenient spot of Land upon Tybee Island and would proceed in Building a House suitable for that purpose but the several other Necessary expences of Government the present inability of the Constituents and scarcity of money render them incapable at this time of providing for this Necessary work by an addition ^(sic) the General tax.

Yet being fully Convinced that your Excellency will on all Occasions assist this House in carrying into execution every measure that may be productive of advantage to the Province and being informed that there is now in the Treasury a considerable sum of money which has arose by virtue of the Act for raising a Publick Store of Gunpowder which they apprehend there will be no Occasion to make use of for some time agreeable to the direction of the said Act. As there is a large Store of Gunpowder now in the Magazine and the Quantity daily encreasing. They therefore request that Your Excellency would please permit them to borrow from that fund a sum not exceeding Three Hundred pounds for the above mentioned purpose, which the House will chearfully repay when thereunto required by Your Excellency or the Commander in Chief for the time being—

dock desires

proceed no far-
ther in his in-
formation

The Order of the day being read for taking under consideration the Information of David Cutler Braddock Esq^r he requested the House would proceed no farther therein for that he had misconstrued a letter wrote him by the Provost Marshal acquainting him that a suit had been entered against him by Nowell, Davies, and An-crum, as an Arrest and requisition of Bail, The House taking the said request into Consideration are of Opinion that the said letter from the Provost Marshal cannot be construed as an Arrest or Breach of Privilege of this House.

Petition of the Merchants about scarcity of Currency A Petition of the Merchants residing in this province whose names were thereunto subscribed was presented to the House and read setting forth, That by the Act of the General Assembly of this Province intituled an Act for stamping Imprinting and issuing &c^a and confirmed by His Majesty the amount of the Currency to be issued by virtue thereof was limited to seven thousand four Hundred and Ten pounds, that by the very great addition of Inhabitants in this province as well as the extraordinary increase of Commerce the Inequality of that sum to the Necessary wants of Individuals is so fully evidenced that it is scarce needful to add the extension of the Province, and the settlement of East Florida where the Bills of Credit of this Province are taken in payment as reasons for a further Establishment of a Currency in Georgia

The many and continued inconveniences the Petition-

ers labour under from the want of a sufficient Currency in a Province where by the Peculiar situation of its commerce and produce they are precluded from the advantage either of receiving any Quantity of Bullion or retaining what little they may receive, find themselves thereby incapable of carrying on Business with any Credit to themselves and of course to the Community, it being a fact past dispute that Men in Trade who have very considerable Debts lying out in the hands of the best Persons in the Province cannot often command the smallest sum on the most urgent Occasions—

The Petitioners therefore apply to the Honorable House and beg leave to lay before it a Case so interesting to the welfare of the Province and humbly hope that upon due Consideration of so apparent an evil Your Honorable House will for their relief therein do what shall seem meet and the Petitioners as in duty bound will ever pray—

ORDERED That the Petition do lye upon the Table for the perusal of the Members of the House—

And then the House adjourned tiil to
Morrow morning Nine oClock

Wednesday March 4th 1767

Petition of the Inhabitants of the Town of Savannah whose names were thereunto subscribed was presented to the House and read Setting forth. That by divers Acts of the General Assembly of this province formerly made and very lately expired, the Male white Inhabitants of the said Town (except such as was therein excepted) with their Male Slaves from the age of Sixteen years to Sixty were Obligated to work on the said town and Common thereunto belonging, under the fines and penalties therein inflicted, that by an Act passed in the year 1760 one fourth part of the Fines were appropriated towards Keeping in repair the Publick Wells then sunk in the said town as well as for sinking others that might be thought Necessary by the Commissioners therein appointed. That by an Act passed in the Year 1766 and now in force, The Town and Common of Savannah The Trustees Gardens

and all the settlements to the Eastward of Musgroves Creek, Yamacraw and Ewensburgh is distinguished and called the Town Division, and that all the male white Inhabitants (except such as are therein excepted) free Negroes and Mulattoes and all the male Slaves within the said Town from the age of Sixteen to Sixty years are declared liable to work within the said division as in and by the said Act directed under the penalty of two Shillings per day for Neglecting or refusing to perform such work, which penalties are for the sinking and repairing such Wells as may be thought Necessary by the Commissioners aforesaid. That the Petitioners humbly conceive that the working on the said town and Common and the fines and penalties inflicted on Defaulters to be a most Grievous Tax without any advantage derived therefrom That the Petitioners are for the most part Artificers and Tradesmen, that they have several Apprentices, and Journeymen hired at very high wages who they could not spare from their daily Labour without great detriment and prejudice— they were therefore Obligated to submit to the Fines imposed, and that some of the Petitioners have paid four pounds a Year and upwards, That the Petitioners are humbly of Opinion that the fines imposed and appropriated are more than sufficient to defray the expence of sinking and repairing the Publick wells, and that they have never been Kept in any tolerable repair for a long time past and are entirely useless, but that if the fines had been duly applied the same had effectually been done before this time, That by an Act passed last session of the General Assembly, the Church Wardens and Vestry were impowered to appoint a Beadle to take care that the Streets Squares and Lanes of the said town be kept clean, they are therefore of Opinion that the work upon the said Town is now become unnecessary That the Petitioners think there can be no Occasion to Oblige the Inhabitants of the said town to work upon the Common, for that they

are daily Grubbing up the Stumps and roots and in a small space of time the whole will be cleared of Course—

The Petitioners therefore humbly Pray that so much of the Act passed last sessions as relates to the Obliging the Inhabitants to work on the said town and Common may be repealed— or that the Petitioners may be otherwise relieved in the premises as to the Honorable House shall seem meet.

RESOLVED That this House will immediately resolve itself into a Committee to take the said petition under Consideration

The House resolved itself into a Committee accordingly after some time spent therein M^r Speaker resumed the Chair and M^r Simpson from the Committee reported that they had examined the matter of the said Petition and come to a resolution which he read in his place and afterwards delivered the Petition with the resolution in at the Table where the resolution was again read and is as follows

M^r Speaker and Gentlemen

Message from His Excellency in answer to the last address As it always gives me pleasure to have it in my power to gratify the Assembly in any application they may make, I am sorry to receive one in which I think I ought not to do it, because I cannot see any reasonable or sufficient Cause for your desiring to be dissolved so soon. You have not yet been Kept above two Years and four

months the last Assembly made no application for a dissolution till they had sat and done the Business of Four Sessions This House has only done that of three and may finish a fourth session by the time it has continued three Years and one Month. And if you have found any inconvenience from the length of the Sessions you have only yourselves to Blame, as its very clear to me that was the Bussiness properly dispatched no Session need continue above Six or Seven weeks at the most which can be no great Burthen or Inconvenience to any Member and therefore I cannot think of dissolving the present Assembly yet

The House met according to adjournment

Petitions to His Majesty and both houses of Parliament ordered Motion was made that a Committee be appointed to draw up Petitions to His Majesty and both Houses of Parliament respecting the scarcity of Paper Currency in this Province—

ORDERED That M^r Ewen and M^r Mullryne be a Committee to prepare the same

M^r Ewen from the said Committee reported they had prepared the said Petitions which were received and read in the words following Viz^t—

To the Kings most Excellent Majesty

The Petition of the Commons House of Assembly of His Majesty's Province of Georgia

Most humbly Sheweth

Petition to the Kings most Excellent Majesty That your Petitioners relying on the repeated and signal Proofs of Your Majesty's Regard for the welfare of your Subjects however remote, Beg leave with all humility to represent to your Majesty that in the Year One Thousand Seven Hundred and Sixty one Your Majesty was graciously pleased to confirm in Council an Act passed by the Legislature of this Province intituled an "Act for stamping, imprinting issuing, and making Current the sum of Seven thousand four Hundred and Ten pounds Sterling in paper Bills of Credit and for applying and sinking the same."

That at the time the said Act was passed the Province

was emerging from the many disadvantages it had long laboured under and with difficulty struggled thro' and its situation with respect to the number of Inhabitants and Commerce was such that the said sum of Seven thousand four Hundred and Ten pounds was deemed sufficient for the use of the said Province.

That by the extraordinary increase of Colonists and the present improved state of Trade, Your Petitioners are daily furnished with proofs that the said sum is very insufficient to answer the necessary demands of Individuals and a proper medium in Commerce, And His Excellency our Governor being restrained by an Act of Parliament passed in the Fourth year of Your Majesty's most auspicious reign Intituled "an Act to prevent Paper Bills of Credit hereafter to be issued in any of His Majestys Colonies or Plantations in America from being a legal tender in payments of money and to prevent the legal tender of such Bills, as are now subsisting from being prolonged beyond the Periods limited for calling in and sinking the same" from passing any Bill for encreasing the amount of the Currency in the said Province therefore most humbly pray your most sacred Majesty taking their case under consideration will graciously please to Grant them such relief therein as to your Royal wisdom shall seem meet.

And Your Petitioners as in duty Bound
shall ever pray &c^a

(S^{to})

To the Right Honorable the Lords spiritual and
Temporal in Parliament assembled

The Humble Petition of the Commons House of
Assembly of the Province of Georgia—

Sheweth,

Petition to the
Rt. Honble the
Lords spiritual

Parliament As-
sembled

That in the Year one thousand seven Hundred and Sixty one ^(sic) was graciously pleased to confirm in Council an Act passed by the General Assembly of the said Province intituled “an Act for imprinting Stamping issuing and making Current the sum of Seven thousand four Hundred and Ten pounds Sterling in paper Bills of Credit and for applying and sinking the same” at that time the small number of Inhabitants the Infant state of the Colony and its commerce considered was thought would fully answer the End of a Transfer or Currency—

That from the Great increase of Trade and the additional number of Inhabitants since the time the said sum of Seven thousand four Hundred and Ten pounds is found to be greatly unequal to the wants of Individuals much less to the proportion it should hold with the produce of the Province, And the “Act of Parliament of Great Britain passed in the fourth year of His present Majestys reign intituled an “Act to prevent Paper Bills of Credit hereafter to be issued in any of His Majesty’s Colonies or Plantations in America from being a legal tender in payments of money and to prevent the Legal tender of such Bills as we are now subsisting from being prolonged beyond the Periods limited for calling in and sinking the same” effectually preventing His Excellency our Governor from giving his Assent to any Act for issuing Additional Bills of Credit Your Petitioners therefore hope that Your Lordships taking the Premises under your serious Consideration will Grant such redress as will effectually relieve Your Petitioners therein—

And Your Petitioners shall ever pray &c^t

The Petition of the Commons House of Assembly
of the Province of Georgia.

Humbly Sheweth/

Petition To the
Knights Citi-
zens and Bur-
gesses in Parli-
ament assem-
bled

That His most Gracious Majesty was pleased in the year One thousand Seven Hundred and Sixty One to confirm in Council an Act passed by the General Assembly of the said Province intituled an "Act for stamping imprinting and issuing and making Current the sum of Seven thousand four Hundred and Ten pounds Sterling in paper Bills of Credit and for applying and sinking the same" a Sum which the then Infant State of the Province both in Improvement and Trade considered was thought sufficient to answer every purpose of a Transfer therein.

That the Commerce of the said Province being since improved to a degree exceeding our most sanguine hopes and the number of Inhabitants also much increased the Natural consequence is that the said sum of Seven thousand four Hundred and Ten pounds is extremely inadequate to the wants of Individuals and the Necessary purpose of a medium in Trade by which the Province in General but more especially those Persons engaged in Business suffer daily and Great inconveniencies a Continuance of which will unavoidably Affect the Credit of the whole.

That the Act of Parliament of Great Britain passed in the fourth Year of His Majestys ^(sic) intituled "an Act to prevent paper Bills of Credit hereafter to be issued in any of His Majesty's Colonies or Plantations in America from being a Legal tender of payments in money and to prevent the legal tender of such Bills as are now subsisting from being prolonged beyond the Periods limited for Calling in and sinking the same" effectually debarring

His Excellency our Governor from giving His Assent to any Act for increasing the amount of the Bills of Credit current in the said Province, Your Petitioners beg leave to lay their Case before Your Honorable House and humbly hope the taking the same under your most serious Consideration You will grant such redress as will effectually relieve Your Petitioners in the Premises.

And Your Petitioners will ever Pray &c^a

queting such Grants in the other proper Offices in this Province."

The House being informed that the Commander in Chief of His Majesty's Forces in America had sent orders to reduce the Troops of rangers now doing duty in this Province by which means Fort George on the Island of Cockspur will be evacuated and the purpose of many wholesome Laws of this Province defeated. Motion was made that an Address be presented to His Excellency the Governor that he would be pleased to use such means as is in His power to replace the said Garrison by a detachment of His Majesty's Troops now doing duty in this Province.

The House is informed of the reduction of the rangers

Address ordered to be presented to His Excellency on that Occasion.

ORDERED That M^r Simpson and M^r Barnard be a Committee to prepare the said Address—

M^r Simpson from the Committee reported they had prepared the said Address which was presented to the House and read in the Words following—

To His Excellency James Wright Esq^r Captain General and Governor in Chief of His Majesty's Province of Georgia and Vice Admiral of the same

May it please your Excellency

Address to His
Excellency about
Garrisoning
Fort George

This House being informed that the Commander in Chief of His Majesty's forces in America has sent orders for the reduction of the Troops of rangers doing duty in this Province and the House taking the same into consideration cannot help being concerned that the Fort on Cockspur Island by that means will be evacuated and the intention of many wholesome Laws in this Province defeated, The House therefore requests that Your Excellency will use such means as may be in Your power to have that Garrison replaced by a detachment of His Majestys Troops now in this province, And the House takes this Opportunity to acquaint Your Excellency that they have come to a resolution to allow each Commissioned Officer at the rate of One shilling and each Non commissioned Officer and Private man of the said Troops at the rate of two pence per diem doing actual duty in this Province

RESOLVED That this House doth agree thereto

ORDERED That M^r Speaker do sign the said Address and He signed the same accordingly

The address
presented to
His Excellency

ORDERED That M^r Simpson and M^r Barnard do wait on His Excellency therewith who being returned reported "That His Excellency was pleased to say in answer to the first part of the address, that it was what he could by no means comply with, that there was only an Officer and Thirteen men at Augusta and that had the number been Twenty He could not think of withdrawing that Garrison Augusta being a frontier the In-

habitants were not only liable to the Insults of the Indians but also to those of a parcel of people commonly called Crackers, a set of Vagabonds often as bad or worse than the Indians themselves, That there was only a Corporal and five or Six men at Frederica but His Excellency believed only six in the whole, that Captain Fuser had wrote to him from Charles Town proposing that those men at Frederica might be withdrawn from thence and added to the Command at Augusta, That His Excellency had wrote Captain Fuser that He had reasons why that could not be done and that the same reasons still existed.

And his answer
thereto—

His Excellency was pleased further to say that He would as soon as possible use his Influence with General Gage to get an Officer and Twenty men to Garrison Fort George on Cockspur Island but in the mean time none of His Majesty's Troops in this province could be spared to go there for the reasons already given—

To the last part of the address His Excellency was pleased to say that the resolution mentioned in the address could not take effect but to make it compleat it would be necessary to have the Concurrence of the Upper House as was usual in such cases and after that a request to him by both Houses that he would order the Treasurer to issue the monies out of any in his hands not immediately wanted

His Excellency was pleased further to say that no monies could be issued by the Treasurer without the Assent and order of the Governor and Council and it could not be imagined that the Council would give their Assent to the issuing this money when they found themselves in this matter slighted and Neglected—

An Address to
the Governor—grossed was Presented to the House and Read in the
words following—Viz^t—

To his Excellency James Wright Esquire Captain
General Governor and Commander in Chief in And
over the Province of Georgia Chancellor and Vice
Admiral of the Same.

The Address of the Commons House of Assembly
of the Said Province—

May it Please your Excellency

We his Majesties most dutiful and Loyal Subjects the
Commons House of Assembly of Georgia having always
embraced every opportunity of Testifying our gratitude
and attachment to his most gracious Majesty our Sov-
ereign Convinced as we are of the many blessings we
enjoy under his protection and the happiness Secured
to us by the British Constitution Cannot help being
greatly concerned at the Earl of Shelburn's Letter com-
municated to us by Your Excellency since we find that
notwithstanding the chearfull resolution of this House
the 26th day of March last to pass a Vote of Credit for

so large a Sum of Money to be paid his Majesties Troops quartered in this Province in lieu of Barrack Necessarys as would amply provide for more than double the Number then here. we have by Misapprehension fallen under his Majesties displeasure! but our Zeal for his Sacred person and the peace of his Government opperate so powerfully that even our justification hath been delayed in consequence of your Excellencys requisition untill it was complied with, and that being now done to your Excellencys Satisfaction we think it our indispensable duty to vindicate this House from the imputations it has long and lilently ^(sic) Laboured under and in order thereto we beg leave to recur to your Excellency's Speech on the day of our last prorogation Subsequent to the vote of this House for the Sum of £191..12..6. a Sum which was thought More than Sufficient to Supply a greater Number of his Majesties Troops with Barrack necessarys than were then or have since been in this Province and the mode of raising it, or the Sum, differing but a very Trifle from the last which gave Satisfaction

Your Excellency was pleased to say that you had wrote a Letter in consequence of our Message in Answer to your requisition of the 20th January last which you delayed Sending in expectation of a change in our Conduct but that you would then "We may be assured" do it and represent matters properly since our behaviour would bear no other Construction than disobedience & want of duty to his Majesty and that it lately tended to make Cyphers of the Council who you would certainly protect in all their privileges — That we had planners and Advicers whose Counsels we would have Occasion to wish we had not followed.—

That you would oppose our Mock Agent at every Board and not one Farthing of the Salary provided for him in the Tax Bill then passed should be paid—

While we lament the real Cause of your Excellencys sending any Letter expressed in Terms to our disadvantage we are equally surprised that it was done at a time when our Conduct gave us no reason to entertain the least Suspicion of our having merited it because on that very day we made (as far as lay with us) of our own Accord and without any Second requisition the ample provision already Mentioned, for proof of which we beg leave to refer your Excellency to some Extracts from our Journals subjoined to this Address—

We are not conscious of ever having made the least attempt upon any privilege of the Council therefore Your Excellencys protecting them will always give us great pleasure, but there are certain Priviledges which this House have an indubitable right to that we shall endeavour to Maintain unviolated and it is with the greatest truth and Sincerity we assure your Excellency that we have no planners or Advisers out of this House That we follow the dictates of our reason only, Which points out in the strongest Light Affection & Loyalty to his most Sacred Majesty & due obedience to his Government these principles teach us also to revere our happy Constitution, And while our hearts overflow with gratitude and Love for our Most gracious Sovereign we cannot too Warmly express our Concern that any invidious cause should estrange your Excellency from us or Occasion our being undeservedly Censured! And Sorry we are that we cannot Agree with Your Excellency either in the person or Epithet of our Agent as we deem him the proper Agent of the People of this Province—having in vain requested the Councils Concurrence in the appointment of him by an Ordinance and with respect to his Salary being stoped we firmly rely upon your Excellencys thorough Knowledge of the force and Spirit of Laws to prevent the first being dispensed with or the Latter encroached upon, and we dare appeal to the Silent

Testimony of your own Conscience as well as the observation of all unprejudiced Men, How far our Conduct "Even in the most Critical Conjunctures have deserved Censure

ORDERED That M^r Speaker do Sign the Said Address and he signed the same Accordingly—

ORDERED That M^r Bullock & M^r William Jones do wait on his Excellency & present the Said Address and they Accordingly withdrew and being returned M^r Bullock Reported That his Excellency was pleased to say that the Address contained some things of an extraordinary Nature which would take him Some time to Consider which when done he would Send an Answer to this House.

A Message from his Excellency the Governor by the
deputy Secretary was presented to the House and read
in the Words following Viz^t

a Message from
the Governor—

Mr Speaker and Gentlemen of the Assembly

In reply to your Address of Friday last in Answer to what you are pleased to call my Speech at the Close of the last Session which in fact was not properly a Speech but rather Cursory observations on some Particular parts of your Conduct and proceedings during that Session (when I found it impossible and that no Arguments could prevail on you to do what I thought right & for the good of the province) and what I had not previously thought of or Committed to Writing as you well Know there was not time for either and therefore if any thing had dropt or escaped me that was not so proper or Strictly regular yet I think it might have rested, But instead of that you have thought fit at the distance of Ten Months to recollect it and Make it for me as a Set formal Speech—

Wherefore I must observe that however you may be concerned at the contents of the Earl of Shelburn's Letter which I communicated to you and however you may Lament the real Cause of my Sending any Letter to his Majesty's Secretary of State which you suppose and insinuate was expressed in terms to your disadvantage and however You may be Surprised that it was done at a time when Your Conduct gave you no reason to entertain the least Suspicion of your having Meited ^(sic) it because on that very day you had made (as far as with you lay) of Your own Accord and without any Second requisition the Ample provision mentioned and whatever degree of Merit you may Claim or think your Selves intituled to on Account of the resolution you came to on the 26th March to provide the Sum of £191.12.6 for his Majesties Troops doing duty in this Province, yet Gentlemen give me leave to say that I cannot See No sort of foundation for you to claim any Merit on Account of that resolution, and the true cause of my Writing

to his Majesties Secretary of State on that Subject, I, as a Friend and well wisher to this Province as well as you really lament and it has given me great Concern that the Earl of Shelburn Should have had any Occasion or reason to Write such a Letter, But Gentlemen these things were produced by Your own conduct and in not Listening to and following the Advice I gave you on the 26th of March as I shall Clearly shew hereafter and if by stating the matter any thing was expressed in terms to your disadvantage you have your Selves to blame for it and not me—and to shew that the whole proceeded from your Conduct and that you are mistaken in that part of Your Address wherein you Claim so much Merit in having made (as far as with you lay) of your own Accord and without any Second requisition the Ample provision Mentioned and in Vindication of my own Conduct on this Occasion and as I am not disposed to interrupt the Publick Business or enter into any Altrecation with you I shall Content my Self with breifly Stating the proceedings and Matters of fact relative to that affair as they really happened and appeared to me and the case then stands thus Viz^t on the 20th January 1767. I sent you the following Message

“It is always with reluctance [same as already copied see Minutes of Tuesday Jan. 20 1767.]

[ends] in the said Act”—

and with this I sent you an extract of Captain Phillip's Letter with a list of the Necessaries required by him and Acquainted you with the Number of his Majesties troops in the province—and on the 18th of February (after having sent you a Private Message or intimation by One of your Members, 2 or 3 days before that if I did not forthwith receive an Answer to my Message I should be

obliged to send a Second in which possibly I should mention some things that might not be pleasing for here I must Acknowledge that I had been informed and believed that Letters had been wrote to Some person or persons in a Neighbouring Province for Advice on this Matter and which Was the reason why that answer was delayed So long and this is what I meant by Planners and Advisers) I received your Address as follows Viz^t "The House having taken [as copied in Minutes of 18 Feb. 1767] [ends] owe their Constituents", and I then expressed the utmost concern at it and told the Gentlemen who brought the Address that it would certainly bring his Majesties displeasure upon us & probably involve the province in greater difficulties than they were aware of and more to the same effect However that I should not enter into any altercation with the House upon it at that time and that they might report my Answer to be "That "as it was my duty to lay this Matter before you so it "will be to transmit your Proceedings thereupon to his "Majesties Ministers." & thus the matter rested till the 26th of March which Was the day that I was to Assent to the Bills that had been passed and put an end to the Session and on that very Morning Cap^t Fuser came here with Orders to disband the Two Troops of rangers upon which I went to the Council Chamber and Sent for your House and Acquainted you with the Orders to break the rangers and proposed some matters to you which I thought absolutely necessary in Consequence of the reduction of the Rangers and as I was really under very great concern at your Conduct relative to the Mutiny Act when you were in the Council Chamber out of Pure regard for the province and people and seeing Clearly that you were about to Involve both in distress and difficulties I took that opportunity to Mention Your Address and expatiated upon it with Some Zeal and Warmth, And Acknowledge that I did say it carried a Strong ap-

pearance and I Conceived would be construed to proceed from a Spirit and disposition to Trample upon the Sovereignty of Great Britain and Exhorted you in the warmest Manner to reconsider it and Make provision for a Compliance with the Mutiny Act which might in some measure do away what I thought they had before very improperly done and I then thought and still do that unbiassed unprejudiced Men would have deemed what I Said as in Friendship and regard for the Province by endeavouring to prevent us from running into difficulties and distress and this produced Your Address and resolution of that days date which you say were made of your own Accord and without any Second requisition and from which you claim so great Merit, In the Address Amongst other things not relative to this point You say "The House takes this opportunity to Acquaint me that "they have come to a resolution to allow each Commissioned officer at the rate of One Shilling and each non "Commissioned officer & private Man of the Said Troops "at the rate of Two Pence P^r diem doing actual duty in "this Province" and to this part of your Address I returned for Answer "That your resolution could not take "effect but to make it compleat it would be necessary to "have the Concurrence of the upper House as was usual "in such cases and after that a request to me that I should "order the Treasurer to issue the Monys out of any in "his Hands not immediately wanted, and further that no "Monies could be issued by the Treasurer without the "assent and Order of the Governor and Council and it "could not be imagined that the Council would give their "assent to the issuing this Money when they found "themselves in this Matter Slighted and Neglected" and after this Answer was reported to your House you came to the following resolution Viz^t "That this House will provide [See ante in Minutes of 26 March 1767] [ends] April next" and after this Motion was made that a Mes-

sage be sent to the upper House desiring their Concurrence with this House in the Said resolution "and the question being put it passed in the Negative" and when you Came into the Council Chamber to offer the Bills for my assent I again Mentioned the matter to you and least there might have been any Mistake in reporting my Message as it was verbal I repeated it and Urged you to proceed as usual and was proper in Votes of Credit in this Province and told you that it was impossible your resolution or intention could take effect without and that if you did not proceed as recommended then whatever distresses or difficulties the province might be plunched into your Constituents would have you and you only to blame for it and this is a true state of the whole transaction and which is Now Confirmed by the Gentlemen of the Council as far as passed in the Council Chamber and the whole of which was Transmitted to his Majesties Secretary of State and therefore I Conceive you can have no reason to be under any Surprize at my writing to him on the Subject or at the Earl of Shelburns Signifying his Majestys requisition and the reasons of it—and that the Matter with respect to your Address of the 28th of October and resolution of the 26th March last may be the more clearly understood and as possibly the point relative to votes of Credit may be different in other Provinces it is Necessary to observe to you that in this province there is No Charter right of Legislation and it being an infant Colony there can be no pretence to plead prescription or any Inherent right But the whole arises from and is founded upon his Majestie's Royal Commission and Instructions to the Governor a part of which directs that all Monys for publick uses shall be granted to his Majesty and Lodged in the hands of such person as he shall appoint the receiver or Treasurer of the Said Colony and be issued by him in such manner as the Governor

and Council shall think proper to direct for the support of Government and in no other Manner or by any other Authority whatever and it is also to be observed that in your Address of the 26th March 1767 you only say You have come to a resolution to allow &^e and in your resolution say you will provide &^a but no Money was Actually provided how then could your resolution (or Vote if you please to call it so) possibly take effect or what end could it answer for no Money was thereby raised or provided and it is well Known that there is no fund in the Treasury or Money whatever raised by any Tax Law but what is Actually appropriated to particular Services or Purposes and if there had been any Fund or Money how was it to be or Could it be drawn out of the Treasurers Hands without the Concurrence of the Council and the Method usually observed in this province in what is called votes of Credit I think is for both the Council and Assembly to Join in it and in this case as the Money was wanted immediately and not to be raised or provided for till a future day (I presume in the Tax Bill Now Coming before your house) it was further necessary that there should be a request of both Houses to me to Consent to an Order to the Treasurer to Advance the Money in the mean time out of any Money in his Hands Not immediately wanted and this seems very proper & Necessary for the reasons Mentioned and others that must Occur and is what I pointed out and recommended to You as the only way by which your intention could be Carried into execution and even this Method might Not be Strictly Legal or regular But if all the Branches of the Legislature had joined in it who (in this Province) could have called it in question but this you Would not agree to for what reasons you Know best—And your not listening to this recommendation and Advice is the true cause and reason of your falling under his Majesties displeasure this made it incumbent on me to Write to his Majesties

Secretary of State on the Subject and was the Occasion of the Earl of Shelburn's letter & his Majesties requisition all which Would have been avoided and prevented had you followed the wholesome Advice given you And I conceive that such a Letter comming from the Earl of Shelburn together with the Kings requisition after having been furnished with every transaction relative to this Matter from first to last is the Strongest proof in Support of the rectitude of my opinion and Assertion that your resolution of the 26th of March last appeared to be nothing at all and of no Force or Effect and here I must Acknowledge that on that day as a remark on Your Instruction to M^r Garth (who you took upon you to appoint or call agent for the Province) to appear in Support and to Solicit his Majesties confirmation of an Act relative to the Carolina Grants I did say that it Was absurd (and possibly might add some other expression) to employ a Gentleman to endeavour to support and Solicit the Confirmation of our Law who was Agent for the province that was opposing it and who we Knew had received Instructions from that province to oppose it and I did also say that I conceived you alone had no right or power to appoint a Provincial Agent and that None could be regularly appointed but by the joint Concurrence of the Three Branches of the Legislature and all this I again repeat and for that reason I did not and shall not consider him as Provincial Agent and should oppose him as such and I did also declare that no Money should be paid him as such and that he is not so you have in some measure Admitted and Confirmed by your proceedings last Week an Ordinance being brought in for the Appointment of a provincial Agent, but what I said on this Head I cannot allow was in the terms you are pleased to say I expressed it. That Gentleman is a stranger to me but from the Character he bears I have a good opinion of him and a regard for him indeed I so good an

opinion of him and a regard for him as to think he will not Accept of your Appointment and I did not mean to cast any reflection on him as you would unfairly insinuate, but only Meant to shew the absurdity of your Conduct and my disapprobation thereof, and I did also then say that some part of your late conduct had a Tendency towards making Cyphers of the Council and as an upper House and that I would endeavour to protect them in all their Just rights & priviledges & I then thought and still think myself warranted in every one of these last mentioned declarations & Sayings from your own records or entries on your own Journals and the point here Mentioned are two of the Instances I mean & I do not see that they are in any wise Answered or disproved by your late Address. And in Answer to that part of your Address of Friday last wherein you are pleased to Say "That Your Zeal for his Majesties Sacred person, and "the peace of his Government operated so powerfully "with you that you even delayed your Justification in "Consequence of my requisition untill it was Complied "with which being now done to my Satisfaction & The requisition I conceive was the Kings & not mine; and it is really Amazing that Gentlemen can be so greatly mistaken as to call your Address of the 28th of October a Compliance with that requisition to my Satisfaction surely no man living who reflects a Moment can seriously call it so, I think that impossible, But let us also see how this Matter Stands and it is thus, Viz^t on the 27th of October last I sent the following Message "Having lately "received Letters from the Earl of Shelburn his Majesties principal Secretary of State for the Southern department has obliged me to call you together a little "earlier than I should otherwise have done. But Gentlemen, I am to Acquaint You that his Majesty expects "and requires that You will render an exact and Compliant obedience in all respects whatever to the Terms

“of the Mutiny Act and I am Commanded without delay
 “in his Majesties Name to require that you will make
 “those provisions for the Supply of the Kings Troops
 “which by that Act you are directed to do and so I
 “Exhort you in the warmest Manner to a Cheerfull and
 “Speedy compliance with the Kings requisition.” And
 in your Address of the 28th of October you Say. “The
 House having [For transcript see ante in Minutes of 29
 Oct. 1767] [ends] General Tax Bill.” And can any
 Gentleman seriously say that this is a Compliance with
 the Kings requisition to my Satisfaction, what is it more
 than was done in March 1767. and will any man Say
 that the firewood &^a is provided or that the Money in
 Lieu thereof is provided or that it can be had, or come
 at without the future Aid, or act, of the Three branches
 of the Legislature; & Gentlemen what is my Answer to
 this Address. “I thank you for it, because you declare
 “your intention & resolution to provide a Sum of Money
 “for furnishing the Several articles therein Specified and
 “which are directed by the Mutiny Act and I tell you
 “that I shall not entertain a doubt but that this intention
 “will be carried into execution in Such Manner as will
 “Clearly Shew a full Compliance with his Majesties
 “requisition and obedience to the Said Act” from all
 which it is most evident that nothing is yet done, further
 than that you have declared you intend to do it & that
 you will do it — As to Certain Indubitable priviledges
 which you have and shall endeavour to Maintain, God
 forbid I should attempt to deprive you of or infringe any
 Just priviledges you can Claim, You well Know I never
 did and I can truly declare I never entertained such a
 thought, nor shall I attempt to dispense with Laws or
 to encroach upon the British Constitution and when ever
 the matter You allude to comes properly before me I
 shall Not be at a Loss how to Act, on the other hand
 Gentlemen be assured I will endeavour to discharge the

trust reposed in me with Integrity and to the utmost of my Power will Support the just rights of the Crown And the Authority of the British Parliament—

There are some insinuations in your Address which I rather think ungenerous and I believe I could easily point out the true Cause of all this Conduct but as I have already said, so I really am not disposed to enter into any dispute with you and therefore shall pass them over referring to your own Journals for upwards of Seven years past for your true and Candid sentiments of me and My Conduct—And as I conceive I have clearly Shewn that your resolution of the 26th of March last could not take effect and that no Money could possibly be issued under or in Consequence of it and also that your Address of the 28th of October last in Answer to the Kings requisition is not a Compliance with or performance of that requisition and that not One Farthing can be issued under the Authority of this Address any more than under that resolution and as Three Months have already passed near one of which you have been Setting to do Business and it does not appear to me that any thing further has been done in obedience to his Majesties said requisition I must now again in his Majesties Name require that you will forthwith proceed to Comply with the Same and that no other Business or any obstacle may interfere with or prevent that Matter from being perfected, and as a Mark of that respect which is due to his Majestys requisition. I must in the Strongest Manner recommend it to you to proceed upon this Business apart and by a Seperate Law—and not to make it an Article in the next Tax Bill as you proposed by your Address of the 28th of October Last—

JA. WRIGHT.

Another Message from the Governor.

Mr Speaker and Gentlemen of the assembly—

On the Memorial of the Inhabitants of the the parish Saint Paul and the Petetion of the Inhabitants of Saint Georges parish. I have thought fit with the advice and Consent of his Majesties Council to establish Courts at Augusta with Cevil & Criminal Jurisdiction to be held Twice in the Year and extending from the limits of this Government westward down to Brier Creek and by the Beaver dams Cross from Savannah river to the North of Horse Creek on Great Ogeechee river and have given directions for proper Commissions to be made out for that purpose. I have also given directions to the attorney General to prepare the draught of such a Bill as may be necessary relative to the Jurys and Constables duties in the Said district and Authorized to say that a goal and Court House will be Built at the expence of the Inhabitants but still some further expence will arise on holding the Said Courts which Matter I must recommend to your Consideration and shall only observe that the Expence of bringing down prisoners from the back parts of this Province and of Maintaining them in Goal where they are often obliged to remain from one Session to another for want of the prosecutors or Witnesses attending has been very Great, and that altho the holding these Courts will be attended with some expence yet I conceive upon the Whole it will be a Considerable saving to the Province as well as an ease to his Majesties subjects and Tending greatly to the better support of good Order and Government.

 the House and Read Setting forth that the Petitioner has for some years past been a Branch pilot for the River of Savannah and Barr of Tybee and been at a Considerable Expence in providing Boats and proper persons to assist him in his duty as Pilot & Flatters himself that he has in every Instance discharged the Trust reposed in him with assiduity dispatch and deligence for the truth of this Assertion he hopes he may appeal to the Testimony not only of the Masters of Vessels trading to this port in General but to the Gentlemen in Trade in Savannah—

That the Petitioner had among others provided at the Expence of above £350 St^s a Schooner rigged Pilot Boaz built for the purpose of attending this Barr and of Burthen Sufficient to Keep the Sea in any Season and in any weather as is well known to many of the Members of this Honourable House

That on the Fifth day of February Instant his Said Pilot Boat together with a very Valuable Slave and a

quantity of Sail Cloth, that happened to be then on board the Same for the purpose of Making a New Suit of Sails were forcibly and piratically carried away by Three Sea Men belonging to a Vessel commanded by Captain Covell now lying at Cockspur and to all appearance are totally and irrecoverably lost to the Petitioner whose Slender circumstances (Occasioned in part by the extraordinary Expence he has been at on Occasion of his undertaking the Said pilotage) can by no Means bear so heavy a Loss, but himself and Family must thereby Inevitably be reduced to great distress—

The Petitioner therefore humbly hopes that this Honourable House taking the premisses under their Consideration will in Commiseration of his unhappy Case and to enable him to proceed in his duty for the Publick good of this province grant him Such relief therein as to them shall Seem Meet—

A Memorial of John Francis Williams Esquire was

A Memorial of

presented to the House and Read Setting forth that Whereas, Some time Since (Vizt) in the year 1763 the practice of Horse Stealing in and about Augusta was so frequent as to become insupportable to the industrious and honest part of the Inhabitants of that part of the province—

That the Memorialist never before, or at that time, had a Horse stolen from him and therefore had the less reason to Complain of that practice but yet from a feeling for his Neighbours especially the poorer Sort who had suffered Severely from that (then growing Evil,) did of his own Accord Set on foot a Subscription to raise the Sum of Twenty pounds Sterling to be offered as a reward to any person or persons that would apprehend, prosecute and Convict a horse Stealer, That as soon as the sum of £20 St^s was Subscribed the Memorialist, (depending upon the Honour of the Several Subscribers thereto) did by Publick advertisement in his own name offer a reward of £20 St^s to any person or persons that wou'd apprehend, prosecute or Convict a horse Stealer. That in Consequence of the Said offer of the Said rewards Several persons particularly one Jacob Hood and William Murphy did go in pursuit of one William Burns who had just then Stolen a horse from the Memorialist whom (the Said William Burns) they did apprehend and imprison and who was prosecuted and Convicted of the Charge & Suffered death for the Same in the Town of Savannah, That the Memorialist from the Nature of his obligation was obliged and did Actually pay to the Said Hood & Murphy the Said reward of £20 St^s besides suffering the Loss of his Horse which he never has since recovered tho he took every Lawful Method to do so— That the Memorialist after paying the aforesaid reward of £20 St^s has repeatedly (but ineffectually) called upon the Several Subscribers to the Said reward who have at

last declared that they will pay no part of it and the Memorialist has it not in his power to compel them to do so by any regular course of Law. Wherefore he has and does yet lie Solely under the burden of paying the Said reward—That by the proceedings of the Memorialist in the prmisses the Publick derived a benefit (hitherto at his Sole Expence) so far as it can derive a Benefit from Making Publick examples of Felons, The Memorialist therefore prays this House to take the prmisses into Consideration and to grant him therein Such relief, as may seem Meet

ORDERED That the Said Memorial be referred to the Consideration of the Committee upon the Estimate—

Mathew Roche

A Memorial of Mathew Roche Acting Provost Marshal was presented to the House and read Setting forth that Whereas one William Sikes since executed for horse Stealing was for some time Confined in the part of the Fort Halifax at present used for a prison at which time there also was confined in the said prison Eight other persons Committed also for Horse Stealing. That the Said Sikes having been remarkable for the Escapes he had made from divers prisons upon the Continent of America, the Memorialist thought himself in duty bound as well by his office as the Publick Welfare to Provide as much as in him Lay Against any Attempt that might be made of that Nature by the Said Sikes more especially as the other prisoners would doubtless have forwarded such an Attempt and themselves taken the same opportunity of Escaping—the Memorialist therefore was under the indispensable necessity from the remote Situation

of the prison and the very insufficient State of it (which he humbly presumes is well Known to Many Members of this House) to employ a Number of People to watch the Same at a very Considerable expence which the Memorialist can Make fully appear, by which Means the intention of the Said prisoners was prevented and those Condemned brought to Condign punishment the Memorialist therefore Humbly presumes to hope this House taking the premisses under Consideration will make him such allowance for the Charges sustained therein as it shall think equitable and Just.

The House taking the Said Memorial into Consideration—

ORDERED. That the Sum of £6..6..0 be added to the **Order thereon** Estimate as a reward to the Said Mathew Roche for his Extraordinary care and diligence in Securing William Sikes—a Notorious Villian untill the time of his Execution—

The Address of the Commons House of Assembly of the Said province—

May it Please your Excellency

The House having taken into its Serious Consideration your Excellency's Messages of the 9th Instant wherein is mentioned his Majesty's Royal disapprobation of the Act for the better Ordering and Governing of Negroes and other Slaves and of the Act for encouraging of Settlers to Come into this province and for building a Court House in Savannah it is with the greatest anxiety and Concern that the House receives that ^(sic) the House receives Notice of the repeal of these Acts but more especially the Negro Act Circumstanced as the province is your Excellency must be Convinced of the indispensable necessity there is for a particular Act for the regulation of Slaves and for the Trial and punishment of Crimes that may be Committed by them without which this House is Apprehensive that not only the properties but the Lives of his Majesties Subjects will be in the utmost danger—

From the Repeal of the other Act it is to be presumed that should a Number of Settlers come in upon the faith of Said Act notwithstanding the repeal the expences that would Consequently ensue upon the Inhabitants of this province by Making immediate provision in the General Tax would be more than their Circumstances could conveniently admit of, if therefore any method can be fallen on to extricate them from so great a difficulty the House trusts from your Excellencys Known Zeal for the Welfare and Credit of the province that you will Chearfully Concur in such a Measure— In answer to your Excellencys Second Message relative to his Majesties Royal additional Instruction dated at Saint James's the 11th day of September last, The House begs Leave to assure your Excellency that it will take the same into its most Serious Consideration.

Message from the Upper House in answer to a message from this House about the Com. of Correspondence

That the upper House having taken into Consideration the message of this House touching the Instructions transmitted by the Committee of Correspondence to Benjamin Franklin Esq^r the Provincial Agent and also the Copy of a Resolution this House came to respecting the said Agent and Containing an Instruction resolved to be given him as to the Repeal of a late Act of Parliament imposing duties For Answer thereto they must Observe that the aforesaid Resolution is an Act of this House on'y having never been Communicated to their House for Concurrence therein (to which they might have had no Objection) and therefore the Members of their House that are of the Committee could not in the Opinion of their House Join in any Instruction to the said Agent founded on a Resolution which their House was unacquainted with.

A Petition of Henry Keall was presented to the House and read Setting forth

**Petition of
Henry Keall**

That the Petitioner formerly had the honour of being Clerk of this House by appointment from His Exc^t the Governor and hath since been informed that a Commission has been given to John Simpson Esq^r The Petitioner therefore begs leave to inform the House that for his Services in the last Session of the General Assembly for Business done as Clerk, He (as of right belonged to him so to do) had prepared an Account to be presented for Payment, But as the said John Simpson was partly Concerned with the Petitioner in the Profits arising from the said Office He desired to have perusal of said Account before it was delivered to the proper Officers to be laid before the Governor and Council for payment The Petitioner accordingly Waited on the said John Simpson and upon his promising to return him said Accompt the morning following which was on the day the Council Sat he left the Accompt with him, but the said John Simpson did not then nor Since deliver or Send to the Petitioner the said Accompt, That the Petitioner on or about this time was taken very ill by means of which he was prevented from going about his Business but that in about Eight or Ten days being something better the Petitioner Called upon the said John Simpson for said Accompt but was acquainted by him that he had shewed the Accompt to the Governor, that His Excellency disapproved of it and did Say that in the manner it was it could not pass the Council for payment, on which the said John Simpson promised to make out a proper Copy

which should be furnished the Petitioner, But his indisposition Continuing he was advised and did for the Benefit of his health retire into the Country for about a month or Six weeks that upon his return to Town to his great Surprize He found that an Accompt had been prescribed by the said John Simpson in the name of the Clerk of the Assembly without the Petitioners Knowledge and an order of Council Obtained for Payment of the Same But upon looking over that Accompt He finds the amount thereof exceeds the Just demand that ought to be made upon the Publick for such Services as will more fully appear by a true Accompt hereunto annexed And for satisfaction to the House he begs leave to particularize some Charges made which upon a Conversation had with the said John Simpson the Petitioner objected as being in his Opinion illegal and what he apprehended he had no right to Debit the Publick with, But the said John Simpson insisted upon inserting the Same as being partly Concerned and they were accordingly made a Charge of in the Accompt delivered to the said John Simpson, But the Petitioner begs leave further to acquaint the House that notwithstanding the Charges so made he did intend before the delivery of that Accompt to have enquired of proper Person as to the Legality of the Charge that is to say the sum of Fourteen pounds St^s for Copying by order of the House out of the Book kept for entering the Laws of the Province in at the rate of Forty Shillings each Bill when no more is allowed to those who are employed by the House in framing and preparing New Bills, The Petitioner accordingly made enquiry of many Gentlemen who acquainted him the Charge was wrong—and that the Clerk had no right to demand such a Sum from the Publick and He further examined Accompts of Thomas Burrington Esq^r late Clerk to the House in the hands of the Publick Treasurer for upwards of Five Years past and Cant find that ever

such a charge was made or demanded the Petitioner therefore begs leave to assure the House that although He has been so ill treated by the said John Simpson with respect to his being deprived of the Office of Clerk He means no otherwise than to Clear up His Character and make it appear to the Publick that the Accompt presented by the said John Simpson is unjust and that no part may be imputed to him, and hopes that the House will order payment to the Petitioner of the Accompt hereunto annexed as before mentioned.

Martis 13 Die Decembris 1768

A Memorial from John Simpson was presented to the House and read Setting forth

That whereas a Petition had been received by the House from Henry Keall setting forth sundry matters respecting the Memorialist He therefore begs leave to lay a State of the Facts before the House which He with submission hopes will prove the allegations Contained in the said Petition false Malicious and Injurious—That the Memorialist having been chosen a Representative for the Parish of S^t James (notwithstanding he had a Commission for being Clerk of the House) did in the month of January last give a Deputation to the Petitioner Henry Keall on purpose to serve him as the said

Henry Keall was then writing in the Secretarys Office at so much 79 Copy Sheet and had not sufficient employment The Memorialist being then in expectation of taking his Seat as a Member, But when the House deemed it incompatible for him to retain his Commission as Clerk and Sit as a Member notwithstanding his having a Deputy, He chose to resign the Commission for a time rather than his Constituents should Want a Representative for the Parish The Session being as he apprehended near a Close, or at least that the Writ for Electing another would not be return'd before the end thereof The Memorialist therefore made an Agreement with his said Deputy Henry Keall to Act as Clerk for the Session upon the same terms as if still a Deputy which will more fully appear in an Indented agreement under the hand and Seal of the said Henry Keall and which is now ready to be produced to the House. That the Petitioner was never directed by the Memorialist in the making out of his account nor did the Memorialist Know what it contained till it was brought to him by the Petitioner some time in the month of July or August, and the Petitioner desired the Memorialist to look over the same Knowing upon what term He held the Office being accountable for the whole emoluments to the Memorialist. That next day after the delivery of the Account the Petitioner Called upon the Memorialist and asked if it was right the Memorialist (finding the Title of the Acc^t to be the Publick of Georgia Dr to Henry Keall) told the Petitioner that in his Opinion as it then stood it would not pass the Governor and Council because the grant was in the schedule annexed to the Tax Bill to the Clerk of the Assembly and no name particularized The Memorialist therefore at the request of the Petitioner promised to make a fair Copy which he accordingly did and Called at the Lodgings of the Petitioner on purpose to deliver the Ac^{co} to him but being told he was not in Town

and not Knowing where to find him the Memorialist to serve the Petition delivered the Ac^{co} to the Treasurer in the Beginning of September, The Memorialist so far from thinking the Accompt a demand of his own can prove to the House that he never enquired of the Treasurer any thing about it nor did He ever apply for the money or any part of it looking upon the Petitioner Henry Keall the proper Person to receive payment and be Accountable (according to Agreement) to the Memorialist That the Memorialist never was desired by the Petitioner to alter the sum of Fourteen pounds nor had any Conversation with the Petitioner about it till some time in the month of October last after a Commission was made out for the Memorialist and then as the Account exceeded the Grant exclusive of that Sum The Memorialist apprehended the House would judge of the Propriety of the Charge as at that time there was no fixed Rule established. The Memorialist having stated the facts as they happened He humbly hopes that the House from its wonted wisdom and Justice will do on the premises as to them shall seem meet.

ORDERED That the Memorial do lye upon the Table for the perusal of the Members of this House.

The Address to

The Humble Address of the Commons House of Assembly of the Province of Georgia

Most Gracious Sovereign

Your dutifull and loyal Subjects the Commons House of Assembly of Georgia with the greatest humility beg Leave to Represent to Your Sacred Person the grievance this Province labours under by the late Acts of the Parliament of Great Britain for raising a Revenue in America. Equally attached by Interest Principle and Affection for our Mother Country We readily acknowledge a Constitutional Subordination to its supreme Legislature, at the same time with unexpressible Concern We must Lament that by their Imposition of Internal Taxes we are deprived of the Privilege which with humble deference We apprehend to be Our indubitable right that of Granting away our own property and are thereby prevented from a ready Compliance with any Requisition Your Majesty may Graciously please to make and which to the utmost extent of our Small abilities We have hitherto always most Chearfully Obeyed.

From Your Majesty's Equity Wisdom and truely Paternal regard for the rights and Liberties of Your Subjects however remote, We flatter Ourselves with and firmly rely upon Redress in this our unhappy situation, and as We of this Province experience Your Majesty's

particular Countenance and protection in our present Infant state for which We are Impressed with the deepest sense of Gratitude so We most fervently hope and doubt not We shall also experience in general with Our Sister Colonies on this Occasion fresh marks of Your Majestys Royal Justice and attention to Supplications of Your distressed Subjects.

We beg leave to assure your Majesty that none of Your numerous Subjects Can or do more ardently Wish and pray for a Continuance of Your most auspicious Reign, and that your latest Posterity may happily rule over a free Gratefull and Loyal People throughout Your wide extended Empire than Your faithfull Commons of Georgia.

The said Address being read was agreed to by the House.

ORDERED That M^r Speaker do sign the said Address and He signed the same accordingly.

Mr. Wyly Speaker of the last Assembly of this Province presented to the House a Letter directed to the Hon^{ble} the Speaker of the Hon^{ble} House of Representatives of the Province of Georgia Signed by Thomas Cushing Esq^r Speaker of the House of Representatives of the Massachusetts Bay, and also a Letter directed to the Hon^{ble} the Speaker of the Commons House of Assembly of the Province of Georgia Signed by Peyton Randolph Esq^r Speaker of the House of Burgesses in the Colony of Virginia and the same were received and read

Mr. Wyly presents the Letter from Boston and Letter from Virginia

ORDERED That the said Letters be entered upon the Journals of this House and are as follows Viz^t

Province of the Massachusetts Bay Febr^y 11th 1768.

Sir

Letter from
Boston

The House of Representatives of this Province have taken into their Serious Consideration the great difficulties That must accrue to themselves and their Constituents by the operation of the several Acts of Parliament imposing duties and Taxes on the American Colonies.

As it is a Subject in which every Colony is deeply interested they have no reason to doubt but that Your Assembly is duely impressed with its Importance; and that such Constitutional measures will be come into as are proper. It seems to be Necessary, that all possible Care should be taken that the Representations of the Several Assemblies upon so delicate a point should harmonize with each Other The House therefore hope that this Letter will be Candidly Considered in no other Light than as expressing a disposition freely to Communicate their mind to a Sister Colony upon a Common Concern in the same manner as she would be glad to receive the Sentiments of Your or any other House of Assembly on the Continent.

This House have humbly represented to the Ministry their own sentiments That his Majesty's high Court of Parliament is the Supreme Legislative power over the whole Empire; That in all free States the Constitution is fixed, and as the Supreme Legislative derives its Power and authority from the Constitution it cannot overleap the Bounds of it without destroying its own foundation That the Constitution ascertains and limits both Sovereignty and Allegiance; and therefore His Majesty's American Subjects who acknowledge themselves bound by the Ties of Allegiance have an equitable Claim to the full enjoyment of the fundamental rules of the British

Constitution. That it is an essential unalterable Right in Nature ingrafted into the British Constitution as a fundamental Law and ever held Sacred and irrevocable by the Subjects within the Realm, that what a man hath honestly acquired is absolutely his Own which he may freely give; but cannot be taken from him without his Consent; That the American Subjects may therefore exclusive of any Consideration of Charter Rights with a decent firmness adapted to the Character of Freemen and Subjects assert this natural Constitutional Right

It is moreover their Humble Opinion, which they express with the greatest deference to the wisdom of Parliament, That the Acts made there imposing duties on the People of this Province with the sole and express purpose of raising a Revenue, are infringements of their natural and constitutional Rights; Because as they are not represented in the British Parliament His Majestys Commons in Britain, by those Acts grant their Property without their Consent

This House further are of opinion that their Constituents Considering their Local Circumstances, cannot by any possibility be represented in the Parliament; and that it will for ever be impracticable that they should equally be represented there and Consequently not at all; being seperated by an Ocean of a thousand Leagues; That His Majesty Royal Predecessors, for this reason, were graciously pleased to form a subordinate Legislative here, that their Subjects might enjoy the unalienable Right of a Representation; and that Considering the utter Impracticability of their being fully and equally represented in Parliament, and the great Expence that must unavoidably attend even a partial Representation there this House think that a Taxation of their Constituents even without their Consent, grievous as it is, would

be preferable to any Representation that could be admitted for them there.

Upon these Principles and also considering that were the Right in the Parliament ever so clear yet for obvious Reasons, it would be beyond the Rules of Equity that their Constituents should be taxed on the Manufactures of Great Britain here in addition to the Duties they pay for them in England, and other advantages arising to Great Britain from the Acts of Trade this House have preferred a humble dutifull and loyal Petition to our most gracious Sovereign and made such Representations to his Majesty's Ministers as they apprehend would tend to obtain Redress—

They have also submitted it to Consideration whether any People can be said to enjoy any Degree of Freedom, if the Crown in Addition to its undoubted Authority of constituting a Governor, should also appoint him such a Stipend as it shall judge proper without the Consent of the People, and at their Expence; and whether while the Judges of the Land, and other civil Officers hold not their Commissions during good Behaviour, their having Salaries appointed for them by the Crown independent of the People, hath not a Tendency to subvert the Principles of Equity and endanger the Happiness and Security of the Subject.

In addition to these Measures the House have wrote a Letter to their Agent M^r Debirdt; the Sentiments of which he is directed to lay before the Ministry; wherein they take Notice of the Hardships of the Act for preventing Mutiny and Desertion which requires the Governor and Council to provide enumerated Articles for the Kings marching Troops, and the People to pay the Expence; And also of the Commission of the Gentlemen appointed Commissioners of the Customs to reside in

America which authorizes them to make as many Appointments as they think fit, and to pay the Appointees what sum they may please for whose mal conduct they are not accountable—From whence it may happen that Officers of the Crown may be multiplied to such a Degree as to become dangerous to the Liberty of the People by virtue of a Commission which doth not appear to this House to derive any such Advantages to Trade as many have been led to expect

These are the Sentiments and proceedings of this House and as they have too much Reason to believe that the Enemies of the Colonies have represented them to his Majestys Ministers and the Parliament as factious, disloyal, and having a Disposition to make themselves independent of the Mother Country, they have taken Occasion in the most humble Terms to assure his Majesty and his Ministers, that with regard to the People of this Province and as they doubt not of all the Colonies the Charge is unjust.

The House is fully satisfied that your Assembly is too generous and enlarged in Sentiment to believe that this Letter proceeds from an Ambition of taking the Lead, or dictating to the other Assemblies: They freely submit their Opinion to the Judgment of others and shall take it kind in your House to point out to them any thing further which may be thought necessary.

This House cannot conclude without expressing their firm Confidence in the King our common Head and Father that the united and dutifull Supplications of his distressed American Subjects, will meet with his Royal and favorable Acceptance

JOURNAL OF COMMONS HOUSE

In the Name and by Order of the House of Representatives

I am Sir/ Your most humble Servant

Signed THOMAS CUSHING Spkr

Directed

To the Hon^{ble} the Speaker of the Hon^{ble} House of
Representatives of the Province of Georgia

Virginia May 9th 1768.

Sir

Letter from
Virginia

The House of Bourgresses of this Colony having very attentively considered several late Acts of the British Parliament and being of Opinion that they manifestly tend to deprive the Inhabitants of the Colonies of their essential Rights and Privileges have thought it their Duty as Representatives of a free People to take every regular Step to assert that constitutional Liberty, on the destruction of which those Laws seem to be erected

They have therefore thought proper to represent, That they are sensible of the Happiness and Security they derive from their connections with and dependance on Great Britain and are under the greatest Concern that any unlucky Incident should interrupt the salutary Harmony which they wish ever to subsist, They Lament that the remoteness of their Situation often exposes them to such Misrepresentations, as are apt to involve them in censures of Disloyalty to their Sovereign and the want of a proper Respect to the British Parliament; whereas they have indulged themselves in the agreeable Perswasion, that they ought to be considered inferior to none of their fellow Subjects in Loyalty and Affection

That they do not affect an independency of their

Parent Kingdom, the prosperity of which they are bound to the utmost of their Abilities to promote but chearfully acquiesce in the authority of Parliament to make Laws for preserving a necessary Dependence and for regulating the Trade of the Colonies; Yet they cannot conceive and humbly insist it is not essential to support a proper relation between a Mother Country and Colonies transported from her, that she should have a Right to raise money from them without their Consent: and presume they do not aspire to more than the Natural Rights of British Subjects, when they assert that no power on Earth has a right to impose Taxes on the People or to take the smallest Portion of their Property without their Consent given by their Representatives in Parliament. This has ever been considered as the chief Pillar of the Constitution; without this Support no Man can be said to have the least shadow of Liberty, since they Can have no property, in that which another can by right take from them when he pleases without their Consent.

That their Ancestors brought over with them entire and transmitted to their Descendents the natural and constitutional Rights they had enjoyed in their native Country; and the first Principles of the British Constitution were early engrafted into the Constitution of the Colonies, Hence a Legislative Authority, ever essential in all free States, was derived and assimilated as nearly as might be to that in England; the executive power and the right of assenting or dissenting to all Laws reserved to the Crown and the privilege of chusing their own Representatives continued in the People and confirmed to them by repeated and express stipulations. The Government thus established they enjoyed the Fruits of their own Labour with a Serenity which Liberty only can impart. Upon pressing Occasions they applied to his Majesty for Relief, and gratefully acknowledge they have

frequently received it from their Mother Country. Whenever their Assistance was necessary, Requisitions have constantly been made from the Crown to the Representatives of the People who have complied with them to the utmost Extent of their Abilities.

The ample provision made for the support of the Civil Government in the Reign of King Charles the second, and at his request, and the large Supplies voted during the last War upon Requisitions from his Majesty and his Royal Grandfather afford early and late Instances of the Dispositions of the Assemblies of this Colony and are sufficient Proofs that the Parliament of Great Britain did not till lately assume a power of imposing Taxes on the People for the Purpose of raising a Revenue.

To say that the Commons of Great Britain have a right to impose internal Taxes on the Inhabitants of this Continent who are not and cannot be represented is in effect to bid them prepare for a State of Slavery. What must be their Situation should such a Right be established? The Colonies have no constitutional Check on their liberality in giving away their Money, cannot have an Opportunity of explaining their Grievances or pointing out the easiest Method of Taxation for their doom will be generally determined before they are acquainted that the subject has been agitated in Parliament; and the Commons bear no proportion of the Taxes they lay upon them. The notion of a virtual Representation which would render all our Rights merely ideal, has been so often and so clearly refuted that nothing need be said on that head.

The oppressive stamp Act confessedly imposed internal Taxes and the late Acts of Parliament giving and granting certain Duties in the British Colonies plainly tend to the same Point—

Duties have been imposed to restrain the commerce of one Part of the Empire that was likely to prove injurious to another and by this means the Wellfare of the whole promoted, but Duties imposed on such of the British Exports as are Necessaries of Life to be paid by the Colonists on importation, without any view to the Interests of Commerce, but merely to raise a Revenue, or in other Words, to compel the Colonists to part with their Money against their Inclinations, they conceive to be a Tax internal to all Intents and Purposes, And can it be thought just or reasonable, restricted as they are in their Trade, confined as they are in their Exports, Obligated to purchase these very Necessaries at the British Market, that they should now be told they shall not have them without paying a duty for them.

The Act suspending the Legislative Power of New York they consider as still more alarming to the Colonies, tho' it has that single Province in view. If the Parliament can compel them to furnish a single Article to the Troops sent over, by the same Rule they may oblige them to furnish Cloaths, Arms and every other Necessary even the Pay of the Officers and Soldiers a Doctrine replete with every Mischief, and utterly subversive of all that is dear and valuable; for what Advantage can the People of the Colonies derive from their Right of choosing their own Representatives if those Representatives when chosen, not permitted to exercise their own Judgments were under a Necessity (on pain of being deprived of their legislative Authority) of enforcing the Mandates of a British Parliament.

This Sir is a Sketch of their Sentiments as they are expressed in a Petition to his Majesty, a Memorial to the R^t Hon^{ble} the Lords spiritual and temporal, and in a Remonstrance to the Knights Citizens and Burgesses of Great Britain in Parliament assembled.

JOURNAL OF COMMONS HOUSE

In all these proceedings the Council of this Colony have concurred and have directed their Agent, James Abercrombie Esq^r to join Edward Montague Esq^r the Agent for this Colony in applying for redress of the Grievances they so justly complain of, Copies were delivered to the President who is desired to transmit them to the Secretary of State appointed by his Majesty to manage the Affairs of North America, and M^r Montague is enjoined to consult the Agents of the other Colonies and co'operate with them in every measure that shall be thought necessary on this delicate Point.

This House hope they have expressed themselves on the Occasion with a Firmness that becomes Freemen pleading for fundamental Rights and with a decency that will exempt them from any Imputation of Faction or Disloyalty. They have mad known their proceedings on this Subject with a view that the Representatives of your Province being acquainted with them, may go hand in hand in their Opposition to Measures which they think have an immediate tendency to enslave them; and are perswaded that the Candour of your respectable House will consider it in no other Light. They are not without hopes that by a hearty Union of the Colonies, the Constitution may be again established on its genuine Principles, an End equally to be desired both by the Mother Country and her Colonies.

In the Name and by order of the House of Burgesses
I am with the greatest Respect

Your most obedient humble Servant

Signed PEYTON RANDOLPH Speaker.

M^r Speaker and Gentlemen of the Assembly

The Governor's
Speech before
the dissolution

From the Disposition that appeared amongst You at the opening of this Sessions I was very hopefull and flattered myself that it would have been brought to a happy conclusion, and it gives me great Concern to find it now otherwise, and that you have disregarded the principal Matter I had in charge from the King and thereby missed so fair an Opportunity of cherishing the Confidence his Majesty has in your Affections, but by your reviving and shewing Confidence and Support to the Boston Letter in the manner you have done, you have laid me under the Necessity of dissolving you.

You will know that more than ordinary Pains has been taken to prevent this Event and if any disagreeable Consequences should attend it. You will have brought them upon the Province by a *deliberate Act* and it is You and You only will have them to answer for to your Constituents, and however you may have suffered yourselves

to be influenced by the Conduct of other Provinces and whatever you may now think; be assured Gentlemen that your true Liberty, your Property and every thing that is valuable must depend upon a free and uninterrupted course of Law and Government *under the Protection and Support of the Mother Country* and that you cannot possibly enjoy these invaluable Blessings *without that Protection and Support* And how can you expect this or what Right can you pretend to it, if you declare yourselves to be an independent People, and to me it appears a flat and positive Contradiction to acknowledge "*the British Parliament to be supreme legislative Power over the whole British Empire*" (of which We are a Part) and in the same breath to deny the power of that very Parliament over us, nor can I see or admit the Propriety of the Americans declaring "*That they chearfully acquiesce in the authority of the British Parliament to make Laws for a Necessary dependence and regulating the Trade of the Colonies*" and at the same time denying its authority to make other Laws, which I conceive to be a very loose and improper Jumble or System of Government and subordination and without any Criterion but the mere Caprice of the Populace, and I presume that the Authority of the British Parliament must be full and compleat or does not operate at all and that the Power of the British Parliament does extend to America is a point I never doubted or heard disputed till the Affair of the Stamp Act, and to shew that it does I shall only refer to the proceedings in Parliament on the grand Debate relative to that Act, when I believe there was near 400 members present only 9 or 10 divided against that Power; also the Votes of the House of Commons of the 24th Feby 1766 and the Statute of the 6th of his present Majesty Chap: 12th

The Distinction between internal and external Taxes

it is well known *here* from its first appearance amongst us I said I conceived it to be a Distinction without a Difference, and I also declared that if it was granted that the Americans were not subject to or could be legally or constitutionally taxed by the British Parliament *not been represented there* then I apprehended the same reason would hold in every Case and the same Objection lye against every Law made by the British Parliament to Affect the Colonies or his Majesty's Subjects in them. For it seems absurd to say the Colonies are not bound by British Acts of Parliament *imposing what they call internal Taxes* because they have not consented to such Laws *not being represented in that Parliament* and at the same time to admit that they are bound by and subject to *other Laws made by the same Parliament* and I do not find that there is any Difference or Distinction in that constitutional Rule or Principle that no man is bound by any Law to which he has not given his Assent either in Person or by Representation, But which Rule *is General and holds in all Cases* and with Respect to *all Laws* and if so, the Colonies I conceive are either bound by and subject to all the Acts of the British Parliament in which they are mentioned or are subject to None of any Kind whatever and consequently to be considered as independent of the legal or Parliamentary Power of Great Britain.

I also declared at the same time that if America could be or was to become Independent of the Mother Country; from that Day you might date the Foundation of your Ruin and Misery These were the Sentiments I declared near three years ago and which I still retain, and most ardently wish it had been in my Power to prevail on you to be so far of my Opinion as to have paid due Regard to His Majesty's Expectations from you and to have a more prudent Conduct in that particular, untill the Mat-

ters in difference between Great Britain and the Colonies and which are now at the Crisis had been clearly and effectually settled and determined. But as Things are circumstanced there is only one Act further remaining for me to do at present, which is by Virtue of his Majesty's Authority and in his Name to dissolve this Assembly and I do hereby accordingly dissolve the Same.
